

East Is East—Please

Stay east, young winter, is the earnest cry of fortunate Victoria residents who—so far, fingers crossed—have been spared the shivery chore of carrying in long-handled underwear to be thawed by the fire after “drying” in sub-zero weather. Underwear at left is courtesy of Duluth, Minn.; on the other hand, flowering ash at right, on Manor Road, off Joan Crescent, is courtesy of moist, mild weather which Victoria likes to call “just normal” for December—and sometimes it is. (Underwear by AP Wirephoto, ash blooms by Times photographer.)

WARMER, SUN FOR VICTORIA

Vancouver Harrassed By Third Day of Fog

VANCOUVER (CP)—Fog is spending its third straight unwelcome day visiting the lower mainland of British Columbia. It lifted a few feet over Vancouver Monday, then settled down again to spend the night. A similar pattern was predicted by the weather office for today.

A high pressure area moved into B.C. Sunday, bringing dense fog banks that cancelled air flights and caused delays on road, rail and sea transportation.

Visibility has been better since, and airlines have been making their way back to normal operation.

Break-ins and minor accidents, however, remain a problem in Vancouver. In one serious incident, farmer Karl Kullmann of nearby Langley suffered two broken legs when his truck was hit and pushed 900 feet by a CNR train.

In another, Burnaby resident Herbert Thomas became confused in fog and drove his car down a dead-end street, over a sloping lawn, and into the bedroom of a basement suite.

Greater Victoria and the southern tip of the Island can expect foggy patches with reduced visibility in high areas tonight, but on the west coast gale warnings are out.

Mental Home Brutality Claims Under Government Investigation

A senior health department official is at Colquitz provincial mental home today investigating allegations of brutality and neglect.

The allegations were made at a preliminary hearing of a charge of attempted murder against Peter Howard Dootson, a Colquitz psychiatrist, aide, in Saanich.

Two other employees at Colquitz have been suspended pending a preliminary investigation.

They are William O. Higgs and Allen H. Cosh, who appeared as witnesses at the preliminary hearings.

The charges made while giving testimony at the hearings are being investigated.

Health department spokesman said they were charges of brutality and neglect of patients at the Wilkinson Road mental home.

The investigator at Colquitz will report his findings to the health and attorney-general's departments.

Colquitz, once a prison, has been much criticized as a mental institution.

It has been the subject of strong debate in the legislature and MLAs who have toured it said they were shocked at conditions there.

Health Minister Eric Martin announced in early 1961 that Colquitz will be closed as soon as possible.

AROUSES WEST INTEREST

What aroused Western interest was Tsarapkin's statement that international inspectors could enter the Soviet Union periodically to collect the readings from the boxes. Although this was a long way from the on-site international inspection of suspicious disturbances demanded by the West, it was still the first time in many months the Russians had agreed to admit any international inspectors at all.

Steele, speaking today to the three-power test ban subcommittee, said the Soviet readiness to allow foreign inspection to service the black boxes shows that the Russians no longer fear foreign inspectors would engage in espionage activities. The fear of spies is the Russians' main stated objection to the on-site inspection system demanded by the West.

READ IN PAPER

“As soon as we read the charges in the paper they had to be checked through by the department,” he added.

The suspensions do not mean the employees will lose their jobs, but the senior departmental official who arrived from Vancouver this morning is looking into the whole matter, he said.

\$60,000 Drug Haul By Vancouver RCMP

LEGAL ABORTION REQUESTS TO SWEDEN FROM FOREIGNERS

STOCKHOLM (AP) — About 20 requests for legal abortion have been received from women in foreign countries, including Canada, since the Sherri Finkbine case, a spokesman for the Swedish Board of Medicine reported today.

Only one has been granted, to a German.

Mrs. Finkbine, an American, was granted a legal abortion in Sweden last summer after authorities in Arizona, her home state, turned her down. She had taken the tranquilizer drug thalidomide early in her pregnancy and feared her baby was deformed.

Most of the women filing requests were from West Germany, but Canada, the United States and Australia also have been represented.

THIS WORLD OF OURS

People and Things

(Times News Services)

LONDON — The 7,000 residents of the little community of Welwyn, named last August as the best-kept village in Hertfordshire, were up in arms Monday over a report about some aspects of life within their white-painted homes.

Behind the modified village-size Kinsey report is Canon H. Roland rates the village's rector for the last 31 years. With the aid of 12 leading citizens he undertook the report, which was released during the weekend, on behalf of the National Christian Family Year.

The committee reported Welwyn's illegitimacy rate was 6 per cent twice the national average; that 30 per cent of village children were emotionally disturbed; and that there was widespread evidence of unhappy marriages and inadequate parents.

For five months the committee held secret meetings and also interviewed teachers, parents, magistrates, social workers, youth leaders, teenagers and old-age pensioners.

One of the most unhappy men in the village Monday was the canon, who protested that parts of the report "have been taken out of context."

"The report, if read in full, is quite harmless," he said. "All these problems are national problems and exist all over the country."

Although he was deeply disturbed by the reaction of the villagers, he plans a meeting to discuss action on the report.

At The Rose and Crown, the 370-year-old local pub, the report was the only topic of conversation. Innkeeper Leonard Summies, who moved to Welwyn, about 20 miles north of London, four years ago, said the report was a "gross exaggeration."

"We not only have the best-kept village, but also the best-kept women," he said.

SAN FRANCISCO — Capt. Harold E. Riddle was fined \$75 Monday for catching undersized whales, despite his attorney's contention: "How do you throw back a 33-foot whale?"

NORWICH, Eng. — It was a quiet day in Norwich public library when in walked Constant Reader announcing he had some overdue library books to return.

"Certainly sir," smiled the librarian. "How many?"

"Well, two hundred and ninety-nine," said Constant Reader.

They were outside in a truck. Constant Reader said he was bringing them back after hearing the library was granting an amnesty on fines on people who keep books out longer than the prescribed reading time.

PRYOR, Okla. — The sheriff's two-way radios were repaired Saturday, for non-payment.

Workmen for Motorola Communications and Electronics Incorporated, Tulsa, dismantled the 50-foot antenna atop the courthouse.

Also removed were the base station in the sheriff's office and three mobile units.

Motorola said a \$1,410 payment, due last June, had not been paid. The delinquent payment and another installment next month would have paid off the balance.

There is no money in the county's general fund because the excise board has slashed budgets.

Sheriff L. L. Weaver had a solution:

"I'm going over and hold a course with the Indians and learn how to send smoke signals."

VANCOUVER — Santo Marzen had his three 40-gallon barrels of wine stacked in a safe place along the basement wall.

Along came Carl Waldemar Larson, 19, in his car. He failed to make a turn and smashed into Marzen's home.

The loss: six feet of wall and 100 gallons of wine.

McNaughton Aims Case Before MPs

By ALEX YOUNG

Times Ottawa Bureau

Ottawa — Gen. A. G. L. McNaughton is taking his fight against the Columbia River Treaty into parliament this week, despite the government's reluctance to permit parliamentary examination of the pact.

An unofficial gathering of MPs has been arranged for Wednesday night before which the general will appear to present his case and undergo cross-examination.

The meeting will be held in a Commons committee room, even though the government has refused so far to refer the treaty to the House external affairs committee for examination prior to ratification.

Two MPs—one a Liberal and one a New Democrat—arranged the meeting and have

Great Reveen Bankrupt

VANCOUVER (CP) — Peter Reveen, a bearded Australian hypnotist currently appearing in Edmonton, has gone into bankruptcy and turned over his affairs to a trustee here.

Papers filed by Reveen from Edmonton list his liabilities at \$86,266 and assets at \$63,150.

Included in Reveen's list of debts is a \$41,000 mortgage and a \$24,000 swimming pool on property in West Vancouver.

Besides this he owes almost \$4,000 to two airlines and \$1,89 to Canadian Pacific Telegraphs.

The department of National Revenues also is listed among the creditors.

Whitehorse Families Flee Creeping Slush

WHITEHORSE, Y.T. (CP) — the river today to find out where the stoppage most severe. If the ice were solid it could be blasted, an army spokesman said, but the jell-like slush in the river left no way to clear a channel.

The women and children were lodged in a Roman Catholic hostel after their evacuation. The crawling slush also forced a number of trailers to leave a trailer parking area near Sleepy Hollow within the Whitehorse city limits.

About 70 homes on a former river bed were threatened as mild weather delayed freeze-up of the nearby Yukon River

and slush and ice impeded its course, causing it to overflow.

No estimate of property damage was available.

Sleepy Hollow and other low-lying areas known as Whiskey Flats and Moccasin Flats experience river overflow trouble

every year. The last major trouble occurred in 1928 when all of the low areas were seriously flooded.

OCEAN SAILED IN 26-FT. BOAT

BRIDGETOWN, Barbados (AP) — Jimmy Stephenson, 40, a flight engineer from Clearwater, Fla., has arrived here after crossing the Atlantic alone from Cape Verde Islands, off the western coast of Africa, in the 26-foot yacht Lereve. Stephenson, who left Cape Verde Nov. 8, said the 2,040-mile voyage was slow and uneventful. He experienced five days of calm and several days of very light wind.

THE 4-WHEEL DRIVE SCOUT!

Snowbound? Not if you're a Scout owner. The Scout Field Days proved convincingly that the deepest drifts, on or off the road, are no match for the 4-wheel drive Scout.

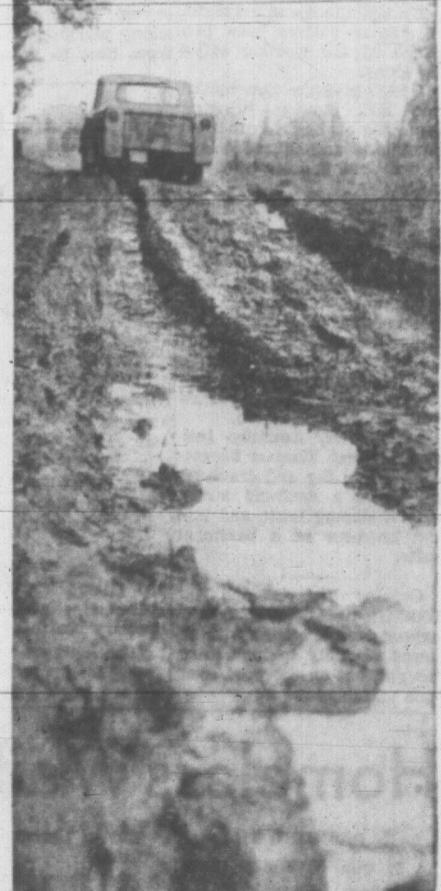

Equipped with a hydraulic snow plow, this Scout quickly opened up the snow clogged lanes and the parking areas for the many Field Day visitors.

These pictures, snapped during recent Scout Field Days, help to explain why the new Scout has made international the undisputed 4-wheel drive sales leader in Canada.

Hundreds of prospects climbed into the driver's seat and took the Scout over a no-holds-barred two-mile course that at times was blanketed with deep, wet snow. Mud was churned into troughs nearly two feet deep. The rain-swollen creek made engines steam—but not stall. The Scout zipped up steep hillsides slimy with mud.

It was an experience that the drivers would not soon forget. They proved for themselves (as you can too) that nothing can stop the Scout.

Heavy rains and snow turned sections of the Field Day course into quagmires and proved that deep-rutted farm lanes, construction sites and wilderness trails are made to order for the 4-wheel drive and high clearance of the Scout.

... and look who's buying the SCOUT!

- CONTRACTORS
- SUBURBAN RESIDENTS
- OUTDOORSMEN
- SERVICE STATIONS
- PUBLIC UTILITIES
- MINERS AND LOGGERS
- FARMERS
- DELIVERYMEN
- RESORT OPERATORS

Second Radio Relay Satellite Ready to Replace Dead Telstar

C A P E CANAVERAL (UPI)—America plans to install a new radio relay station in space this week to replace its dead Telstar communications satellite.

The new satellite is a 17-pound eight-sided package of assorted electronics named "relay." It is scheduled to be launched from Cape Canaveral Thursday evening.

MINUTEMAN MISSILE GOES ON COMBAT READINESS TEST

LOS ANGELES, Calif. (AP)—A Minuteman intercontinental missile, expected soon to be declared operational, exploded Monday moments after launch from Vandenberg Air Force Base.

The 38-foot three-stage solid-fuel rocket, fired from an armored hole, appeared to have lifted off normally. Then it vanished in a ball of fire 15 or 20 miles seaward. The cause was not announced.

The air force had hoped Monday's shot would demonstrate that the Minuteman is combat ready.

The missile is capable of hurling nuclear warheads 6,000 miles.

Tories Retain P.E.I. With Cut In Majority

CHARLOTTETOWN (CP) Jubilant Walter Shaw looked like a man half his 74 years Monday night after becoming the first Conservative premier to win re-election in Prince Edward Island since 1915.

The stocky six-foot premier overjoyed with the outcome of the election that gave his Conservatives 19 of the 30 seats in the legislature, was as cheery as Santa Claus after the pre-Christmas vote. "I'm truly, truly happy . . . and proud," he said.

Final standings:

Pcs	1962	1959
19	22	
Lib.	11	8

Although the Liberals gained three seats—including that of provincial Treasurer Melvin J. McQuaid—"the ablest in island politics for many years"—the premier said the outcome " vindicates my government's policy." He was "very disappointed" at the defeat of Mr. McQuaid, his only cabinet loss.

"The premier took Mel's defeat hard," said a source close to Mr. Shaw.

NOT PLANNING TO RETIRE

The premier's appearance after his re-election seemed in itself almost a denial of rumors that he plans to retire shortly. In hospital with a glandular ailment this summer, Mr. Shaw has been mentioned as the next P.E.I. lieutenant-governor. To these suggestions, he recently said: "Why should a young fellow like myself, in the middle of zip and good health, want to retire?"

He will be 75 in 10 days and is Canada's oldest premier. After a civil service career he became premier in 1959 when the Conservatives ended 24 years of Liberal rule.

The government's re-election was reported two hours after the polls closed. With all ballots counted there were only minute changes in the parties' share of the popular vote compared with the 1959 election, also a straight two-party fight.

NOT TOO DISAPPOINTED

Liberal Leader Alex W. Matheson, 59-year-old former island premier, showed only slight signs of disappointment. "I hoped that we might win but at least we gained some seats," he said. As to his own future he said "that's up to the party." He had been enjoying himself since returning to his law practice after the Liberals were defeated three years ago.

Mr. Matheson said majorities in several ridings were slight and recounts could put more Liberals in the House.

A storm that threatened to end the island's late spell of Indian summer weather stayed away and the voters were favored with warm, sunny weather.

The premier called the surprise election—he had another year to go in a traditional four-year term—to seek voters' support of his plan to abolish hospital premiums, which cost families \$48 a year. He plans to pay the premiums from general revenue.

Sales & Service CALL RAY CREED

1009 Tuxedo GR 9-1151

Victoria Daily Times TUES., DEC. 11, 1962

will be brought into the network for instantaneous telephone service connecting it with the United States and Western Europe.

And sometime next year, Japan is expected to join up, extending satellite communications halfway around the world for the first time.

Relay essentially will perform the same job as Telstar, launched last July 10—to serve as a miniature station to pick up radio and television signals, amplify them and bounce them back to receiving stations thousands of miles away.

U.S. scientists will use a three-stage Delta rocket, which has run up a string of 13 successes, to send Relay on its way. The Delta also launched the Telstar.

If all goes according to plan, the Relay satellite will be placed into an orbit that will take it once around the earth every three hours or so, at altitudes ranging from 800 miles to 4,500 miles above earth.

Scientists said the satellite would be at "maximum efficiency" for the first 30 days, and that it would be able to handle communications for up to a year.

THREE MONTHS

Telstar lasted for about three months before going dead. Its death was blamed partially on damage to its power supply by natural and man-made belts of radiation in detail. This information will help scientists in the construction of future communications satellites.

After putting relay into orbit, scientists planned to let it "rest" for the first four orbits, to absorb solar energy that will charge up its batteries. On the fifth orbit, relay is supposed to pass over a ground station at Nutley, N.J., for checks.

In order to transmit communications between two stations, the satellite will have to be in simultaneous view of both points. Scientists said this should occur on three orbits per day, with a workable transmission time of 15 to 30 minutes per orbit.

The first telecast between the United States and Europe, using the relay satellite, is expected about two days after the launching. Stations at Nutley and at Goonhilly Downs, England, and Pleumeur-Bodou, France, will take part in this experiment.

UNCOVERED BY GALES

It is speculated that recent gales uncovered the anchor from the casing of sand and mud which has preserved it for many years.

Had it not been for this protection the wooden stock, which is the clue to the anchor's age, would have rotted long ago. Research shows

NOT AN INDICATOR

On both counts, Monday's voting could hardly be regarded as an index of national political thinking or an indicator of what might be the result in a national election at this time.

STAIR-GLIDE
Solves your climbing problem
R. A. GREEN LUMBER CO. LTD.
2391 Douglas St. 385-9774

Prince Edward Island election results must be analyzed in their proper context.

For one thing, it was a straight two-way contest in a province in which Social Credit

OUT OF THE DEPTHS on the seaward side of Coburg Spit, where it lay buried for probably a century, came this anchor. Two of the frogmen who found it are shown watching as a powerful crane lifted the anchor and chain on the jetty at the Colwood side of Esquimalt Harbor. (Times photo)

100 YEARS OLD

Anchor May Lead To Hull of Wreck

And the navy and army divers who landed it surmise that even more interesting relics—perhaps the hull of an old ship—are buried in the sand and mud.

"It is getting more interesting by the minute," said Lt.-Cmdr. C. P. Isley, staff adjutant at Canadian Services College Royal Roads. "There is probably the remains of an ancient ship buried out there."

UNCOVERED BY GALES

It is speculated that recent gales uncovered the anchor from the casing of sand and mud which has preserved it for many years.

Had it not been for this protection the wooden stock, which is the clue to the anchor's age, would have rotted long ago. Research shows

How Toronto Takes The Jam Out Of Traffic

In heavy traffic, fuel and wear-and-tear on your car may cost you 90 cents an hour! Read in December Reader's Digest how electronic traffic brains are saving time, money and lives—up to \$2,000,000 in Toronto alone. Find out how remote control systems, using ultrasonic detectors, radar and TV can keep traffic moving, and save you money! Get your copy of Reader's Digest and read "They're Taking The Jam Out Of Traffic" . . . and 38 other articles of lasting interest.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was promptly relieved. And while gently relieving pain, actual reduction of retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough

Last of Bodies Found In U.S. Mine Disaster

CARMICHAEL, Pa. (AP)—The search is all over for 37 miners

entombed in a shattering explosion last Thursday in a soft-coal mine. Grim rescue crews, after almost a five-day search, found the last of the bodies Monday night.

State mine officials blamed the explosion on methane gas and coal dust. All were killed instantly. The blast occurred at 1:15 p.m. Thursday in U.S. Steel Corporation's Robona No. 3 mine, one of the world's largest mechanized operations, 50 miles southwest of Pittsburgh.

U.S. Steel said that the entire area 650 feet underground had been explored. All of the men trapped in the mine were killed by the force of the blast.

Many remained to be identified.

Forty-four other miners working in another part of the mine shaft at the time of the blast escaped unharmed. Most of them returned to aid the rescue crew.

"It's a tragic thing," said Herman Strube, 39, of Carmichael, one of the rescue workers. "They were all my buddies."

Joe Seper of Ronco, whose brother, Charles J. Seper, 57, was killed in the blast, vowed:

"I quit the coal mines, even if I have to go on relief."

JOB NOT FINISHED

James Girod, assistant general superintendent of rescue operations, said the job of the rescue workers was not finished.

He explained that the ventilation system must be restored and considerable construction work remains in the pits. There was no immediate indication if and when the mine will reopen.

The last of the 10 bodies was sighted shortly after 11 p.m. EST Monday, ending a live-day vigil maintained by friends and relatives.

"I want to be right there when they bring out my husband—alive or dead," said Mrs. John Kaslyak of Grindstone. "I'll be here when he comes out." His body remains to be positively identified.

Science Now Shrinks Piles Without Pain Or Discomfort

Finds Healing Substance That Relieves Pain And Itching As It Shrinks Hemorrhoids

TORONTO, Ont. (Special)—For the first time science has found a new healing substance with the ability to shrink hemorrhoids and to relieve pain and itching. Thousands have been relieved with this inexpensive substance right in the privacy of their own home without any discomfort or inconvenience.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by doctors' observations.

Pain was promptly relieved. And while gently relieving pain, actual reduction of retraction (shrinking) took place.

And most amazing of all—this improvement was maintained in cases where doctors' observations were continued over a period of many months!

In fact, results were so thorough

that sufferers were able to make such statements as "Piles have ceased to be a problem!" And among those sufferers were women with a wide variety of hemorrhoid conditions, some of even 10 to 20 years' duration.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne)—the discovery of a famous scientific institute. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H. It is for individually sealed convenient Preparation H suppositories or Preparation H ointment with special applicator. Preparation H is sold at all drug stores.

Satisfaction guaranteed or money refunded.

A Policy of Defence

HAVING ALWAYS OPPOSED the introduction of nuclear weapons into Canada, Mr. Howard Green indicates that they may be accepted after all. This is the only meaning to be taken from his latest statements in Vancouver. But the question of nuclear weapons cannot be properly considered in isolation, as it is usually considered. It is only one part of a much larger question.

Canada lacks a coherent defence policy today not because Mr. Green, or any other important statesman is playing politics with defence but because the nation's role in the protection of the free world has never been adequately defined.

To be sure, it was defined years ago under conditions no longer prevailing today. It has not been defined in the light of existing conditions, and especially in the light of the Cuban crisis.

What precisely should Canada do; what can it afford to do, what is it willing to do as part of the grand alliance? Until that question is settled the current debate will be fruitless and largely irrelevant.

Mr. Pearson, we think, is right in proposing a committee of Parliament to re-think the defence policy from the beginning. In this proposal he is not seeking any partisan advantage, for it is quite clear that any weaknesses discovered in our defence system will be attributable as much to the former Liberal government as to its successor. Neither of the national parties can escape responsibility for the present situation. And neither will care, or dare, to make political capital out of these problems.

In Mr. Pearson's view Canada has attempted the wrong role in continental defence. If so, that is a criticism of both the Liberal and Conservative governments. Mr. Pearson thus approaches the problem without partisanship as undoubtedly men like Mr. Green approach it. A committee of Parliament should and, we believe would, approach it in the same spirit.

The purpose of a committee-meeting sometimes in secret if na-

tional security were involved — would be to survey the nation's resources and concentrate them where they would do the most good.

Mr. Pearson is inclined to think that they would do the most good if concentrated in conventional weapons, some aspects of the present defence system being abandoned. This or any other policy cannot be considered apart from the policies of our allies, especially those of the United States since it provides virtually the whole defence of North America.

It is widely reported, though the American government has said nothing publicly, that the United States was dissatisfied with Canada's performance, or lack of performance during the Cuban crisis, that our interceptor planes were useless and not even promptly alerted when the continent was in danger of attack. However that may be, it is obvious that our two big Bomarc bases are quite useless, since their missiles are equipped with neither nuclear nor conventional war heads.

It is obvious, too, that the government's policy in this area has fallen between two stools. Canada possesses the means of carrying nuclear weapons but refuses to accept them. There is much to be said for refusing nuclear weapons, lest they complicate the problems of disarmament, as both Mr. Pearson and Mr. Green agree. There is nothing to be said for acquiring, at great cost, the carriers of these weapons if they are not to be carried.

That is the dead end into which our defence policy has been driven. That is one of the many reasons why the policy must be re-thought and revised in the light of past mistakes, present conditions and the needs of our allies.

The nation's chaotic politics make it difficult to settle this or any other question of importance but there is nothing to prevent Parliament, through a non-partisan committee, from reviewing the entire situation without further delay.

Problems Among the Allies

ON THE EVE OF NEW NATO talks, the United States is prepared to advance a thesis heard before, that the West's defensive organization should build up its conventional forces for the protection of Europe.

This time the United States spokesmen will have additional arguments to support their point. The success of the Cuban action by Washington has added emphasis to the fact that conventional armaments are still important today. The Bomb will not settle every quarrel, nor is the Bomb wanted to settle every quarrel.

This will be equally true in Europe, where a military struggle over Berlin would first be conducted on the conventional arms level even though nuclear deterrence would loom in the background. For this reason the United States would like to see NATO's strength in Europe built up to the limits previously prescribed but never attained.

On some aspects the Western members find themselves in disagreement. While from one point of view a greater military contribution by West Germany would be welcomed in strengthening the NATO ranks, on the other hand some of the Western powers do not contemplate with comfort too large an increase in West Germany's armed forces.

There are other difficulties as well. Britain's forces in Europe are under strength, yet the situation at home is not conducive to increased expenditure on them. In France, President de Gaulle's recent victory at the polls is bound to reinforce his determination to take France along its own nuclear path. France's contribution to NATO ground forces is only a little over two divisions, and there is only partial integration of French air defences with NATO. De Gaulle's policy is "France first," where military control is concerned.

Obviously, there are difficulties to be overcome before the European fortress can be put on an adequate defensive basis. And a major problem is to work out an acceptable policy on the use of nuclear bombs—the current arrangement is dangerously mixed.

While American strategy in the Cuban crisis provides talking point in favor of conventional arms development, the easier international climate that has followed the crisis may in itself incline some NATO members to defer increased expenditures.

The forthcoming talks may therefore produce some vital decisions—one way or another—and will be watched by Moscow with interest equal to that of any Western capital.

That Christmas Seal Envelope

PUBLIC APPRECIATION FOR the work financed by the British Columbia Tuberculosis Society's Christmas Seals is so widespread, it seems almost unnecessary to draw attention to the campaign.

The envelopes containing the decorative stickers go out to our citizens. Return envelopes bring back the donations. So far this year something over \$15,600 of the \$24,000 target has already been received—a sum substantially larger

than that collected during the similar period last year.

The continuing fight against tuberculosis goes on. The public's support does not flag. But occasionally the return envelopes are mislaid. By oversight some citizens neglect to forward the contributions they would willingly make. A reminder to them now may prompt quick mailing—and the British Columbia Tuberculosis Society would be grateful for the help it is given in a most worthy cause.

It's Progress—We Hope

WE'RE ALL ONE BILLION years older today. Scientists used to think that the earliest form of life on the earth occurred about 1.7 billion years ago. Fossils found in Canada indicated it. Now there is evidence found in Southern Rhodesia—that 2.7 billion years may be nearer the mark.

Fossils of early one-celled creatures have been found in rocks which go back to that dawn era; presumably the life forms are of the same age. They would have appeared as blue-green algae—a sort of scum on stagnant ponds.

Of course, we've progressed some in the intervening 2.7 billion years. But it makes you wonder,

"Give me the head gardener . . ."

Bierman, Victoria Daily Times

FROM WASHINGTON

Putting a Few of the Cards on the Table

ACCORDING to reliable report, President Kennedy's meeting with wily old Anastas Mikoyan was far more interesting than it was made to appear at the time. What Mikoyan wanted was some form of public pledge by the President that the United States would not invade Cuba. This was supposed to "wind up" the Cuban affair, and incidentally, of course, it was also supposed to give Nikita S. Khrushchev something tangible to point to as a gain from his miscarried Cuban gamble.

As the world knows, Mikoyan had nothing to offer the President in the way of the on-site inspection and verification in Cuba which was such an important item in the Khrushchev-Kennedy bargain. Nonetheless, he rather more than insinuated that the President would be guilty of bad faith, if he refused to issue the desired "no invasion" pledge.

That is the dead end into which our defence policy has been driven. That is one of the many reasons why the policy must be re-thought and revised in the light of past mistakes, present conditions and the needs of our allies.

The nation's chaotic politics make it difficult to settle this or any other question of importance but there is nothing to prevent Parliament, through a non-partisan committee, from reviewing the entire situation without further delay.

Also

Great impudence

Cuban affair. This was the lying personal message that the Soviets would never put into Cuba "weapons capable of reaching American targets," which Khrushchev and Mikoyan sent to the President through Georgi Poltakov, a subordinate officer of the Soviet embassy here.

To this, Mikoyan replied with blarneying impudence so great that one must really admire it. Khrushchev and he, so he swore up and down, really, truly did not regard the strategic missiles that were put into Cuba as offensive in character. Their purpose, he said proudly, was solely defensive.

As for not having been quite frank with the President, Mikoyan went on, Khrushchev feared that the presence of these innocent defensive weapons in Cuba might be misinterpreted and distorted, in the heat of the American Congressional elections. So Khrushchev had tried to keep the missiles a secret until the election was over, when he had meant to tell the President all about them right away.

It can be seen then, why the Kennedy-Mikoyan conversation was not immediately fruitful. Yet it is thought to have borne some fruit, nonetheless, of a slower-ripening kind.

It is thought, in other words, to have helped to drive home to the Kremlin that the U.S. government is no longer willing to accept the long-prevailing double standard of international behavior. This is the odd, but widespread viewpoint which tolerates all kinds of Soviet actions that would universally be regarded as totally intolerable if they were American actions.

The elimination of the double standard is the obviously essential preliminary to any kind of useful negotiations

with the Kremlin. Berlin, nuclear tests and all the other outstanding problems cannot any longer be discussed on the familiar basis of: "What's mine is mine, and now let's have a jolly chat about what's yours."

On the other hand, if the Kremlin is at last ready for equal negotiations, the Kennedy policy-makers are convinced that negotiations will be desirable. There has even been some discussion of a quiet, personal approach to Khrushchev by the President, which would have the effect of testing the climate and perhaps opening the way for talks.

Posture Altered

The Soviet posture is being continually altered, meanwhile, by the ever-deepening split between Moscow and Peking. The Chinese are still observing the convention of calling Marshal Tito of Yugoslavia a "traitor" when they really mean Khrushchev, just as the Soviets still speak of the vile Albanians when they mean the vile Chinese. But the language now being used is downright frenzied.

The split has certainly reached a point, in fact, at which the Soviets no longer give any weight at all to Chinese objections to East-West talks. Certain signs also suggest that the Kremlin is smoothing away existing obstacles to talks.

A most striking sign was the recent conciliatory speech by the East German Communist boss, Walter Ulbricht, with its novel emphasis on the need for "compromises" by both sides in their approach to the Berlin problem. In short, it will not be very surprising if the moment of truth which both sides have experienced, leads on this winter to an attempt to do business with one another on a sensibly realistic basis.

(c) 1962, New York Herald Tribune Inc.

The government has found businessmen increasingly reluctant to invest or expand in the north at a time when, according to official spokesmen, Britain is about to join the six-nation European Common Market. The Market's commercial centre is even further from Scotland than it is from Birmingham.

Parliamentary by-elections in the North—where the government has lost two seats this year—betray an increasing public impatience with Mr. Macmillan's economic policies. These, of necessity, must be temporary until a decision has been reached about Britain's adherence to Europe. The hold-up in the Brussels negotiations over farm prices now suggests that Britain is unlikely to become a full member until 1964, if then.

The government, which was expecting as lately as June, to be in the Market for good or ill by mid-1963, now faces not only an indefinite delay of Brussels, but a quickly deteriorating economic and political situation at home.

It has lent point and emphasis to the theory that the North of Britain, like the South of Italy, may suffer increasingly the economic penalties of geography. Remote from the rich central markets of the new, emerging Europe, Scotland and Cumbria alike fear that there are hard times ahead.

London:

Trouble in The North

By MARK ARNOLD-FORSTER

IN what was to have been their last month, had all gone well, before joining the European Common Market, the British are experiencing the worst business recession, the worst period of economic stagnation and uncertainty and, above all, the worst unemployment returns since the early years of World War II.

Unemployment is creeping south from Scotland to Northeast England and from the six counties of Northern Ireland across the Irish Sea to Liverpool and Merseyside. Already it takes the State employment offices two full days to pay out the basic "doe" of £7 10s. a week.

In the North, elderly victims of the great depression of the 1930s are beginning to recall the long years of misery which preceded the full employment and inflation, that began in 1940 and seems likely to end in 1963.

In the North, but not in the South. For three decades the British consumer goods industries have been forsaking the cold, bleak towns of Northern England and Scotland, where Britain's industrial revolution had its roots almost 200 years ago.

Industry has left the William Blake country, where the dark, satanic mills dominated every valley, for the Midlands, for Essex and for London. And industry has taken its markets with it.

The workers have moved, and are moving still; and because they buy what they produce there is no knowing whether the factories are following the consumers (who are also the workers) or whether the workers (who are also consumers) are following the factories.

Drifting

One thing is certain: no post-or pre-war British Government has been able to hold the drift to the over-crowded Southeast, or to restore the North to the prosperity it once enjoyed as the workshop of England and, once upon a time, of the world.

It is a situation which has been latent for 10 years or more, but which has suddenly become acute at a moment of particular embarrassment for Conservative Prime Minister Mr. Harold Macmillan.

The government has found businessmen increasingly reluctant to invest or expand in the north at a time when, according to official spokesmen, Britain is about to join the six-nation European Common Market. The Market's commercial centre is even further from Scotland than it is from Birmingham.

Parliamentary by-elections in the North—where the government has lost two seats this year—betray an increasing public impatience with Mr. Macmillan's economic policies. These, of necessity, must be temporary until a decision has been reached about Britain's adherence to Europe. The hold-up in the Brussels negotiations over farm prices now suggests that Britain is unlikely to become a full member until 1964, if then.

The government, which was expecting as lately as June, to be in the Market for good or ill by mid-1963, now faces not only an indefinite delay of Brussels, but a quickly deteriorating economic and political situation at home.

It has lent point and emphasis to the theory that the North of Britain, like the South of Italy, may suffer increasingly the economic penalties of geography. Remote from the rich central markets of the new, emerging Europe, Scotland and Cumbria alike fear that there are hard times ahead.

Quotes

Behind the storm of daily conflict and crisis, the tumult of political struggle, the poet, the artist, the musician continues the quiet work of centuries, building bridges of experience between peoples, reminding man of the universality of his feelings and desires and despairs, and reminding him that the forces that unite are deeper than those that divide.—President Kennedy, at the television benefit for the National Cultural Centre.

India's policy of "non-alignment" has been wrecked, militarily if not politically—which means ultimately that if India is to continue to function as a huge, non-Communist "showcase" in Asia, it will need more foreign aid to compensate for the diversion of its capital into building a war machine. The real rationale of non-alignment, has been that India could exist without the vast arms expenditures that staggers so many "undeveloped" countries... that is now a thing of the past.—Greensboro (N.C.) Daily News.

Dramatic Film Of Tunneling Under Wall

By CYNTHIA LOWRY
(AP Television Writer)

NEW YORK (AP)—The Tunnel, a controversial National Broadcasting Company program, was television at its best Monday night. It showed refugees—real people, not actors—crawling mud-covered and exhausted from a narrow tunnel under the Berlin wall to freedom in the West.

Word in October that NBC had taken films of the digging of a tunnel and subsequent escape started a controversy. Originally, NBC planned the broadcast for October 31, but postponed it lest it complicate strained relationships at the time of the Cuban crisis.

Earlier, fears were expressed in the West German senate and by West Berlin officials that the film might endanger those associated with the escape or reduce chances of later escapes from East Berlin. Subsequently the objections were withdrawn.

HIDES IDENTITIES

Network producers took great pains to protect from identification the young men who helped dig the tunnel. In some instances faces were blocked out; in others only the backs of the persons were shown.

Capital Punishment Is Legal Lynching

TORONTO (CP)—Rev. Dismas Clark of St. Louis, a Roman Catholic Jesuit priest whose Dismas House has helped rehabilitate more than 1,000 convicted men, says capital punishment is insane and legal lynching.

"I'll make it stronger than legal lynching," Father Clark said in an interview Monday night. "It's legal murder."

"I'm talking about the U.S.

Who dies in the gas chamber there? The indigent Negro. Capital punishment is practically done away with for white men."

Father Clark, subject of the movie *The Hoodlum Priest*, said of a double hanging at Toronto's Don Jail early today: "The only reason they can give for hanging is that it is a deterrent. So why don't they if they are right—do it in downtown Toronto?"

Progress will be made by having trained personnel de-

cide what treatment a man should have," Father Clark said. He said some criminals should be kept behind bars indefinitely.

"I know guys who'll shoot their own mothers and take bets on which way they'll fall."

Two Killers Hanged As Pickets Protest

TORONTO (CP)—Two convicted killers were hanged back to back early today while police pushed back protesting pickets outside Don Jail in freezing temperatures.

Arthur Lucas, 54, and Ronald Turpin, 29, were the first two persons to be hanged together in Canada in 10 years.

Lucas a Detroit Negro, died for slashing the throat of a man in Toronto last year.

Turpin, of Toronto, was hanged for shooting a Toronto constable in a downtown street gun battle last Feb. 12.

The last previous double hanging in Canada was Dec. 16, 1952, when Leonard Jackson and Steve Suchan went to the Don Jail gallows for the shooting of a policeman.

More than 200 persons gathered at the jail gates Monday night. About 50 of them carried placards protesting capital punishment. They paraded until midnight, scheduled time for

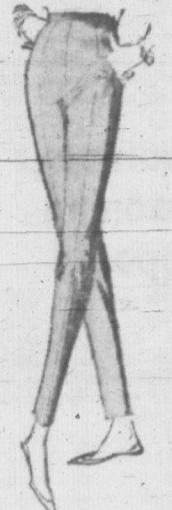

the hangings, then lowered the placards and bowed their heads— who was alone in his cruiser stopped a truck in which Turpin was riding, shortly after a small robbery.

The two men spent their last hours with Brig. Cyril Everett of the Salvation Army.

Jail Governor David Dougall told the condemned men Monday that their sentences had not been commuted. "They took it like real men—without a whimper," he said.

Go out on a limb,
serve Seagram's Gin

That's the spirit!
While most folks deck the
halls with colourless gins,
you serve up Seagram's Gin
with its hint of amber colour.

The difference, of course, is dryness.
By ageing Seagram's Gin longer we remove
unwanted sweetness and perfume.

As the gin becomes crisper dry,
Nature supplies that amber tint.
So remember, 'tis the season to serve Seagram's.

Because it's extra dry.

Port Alberni Boom Strike Symptom of Basic Labor Trouble—Strachan

Fining of 47 boom workers for illegal strike activity at Port Alberni is symptomatic of the breakdown of labor-management relations in B.C., Opposition Leader Robert Strachan said Monday.

The boom men were found guilty and fined \$40 each in connection with an August work stoppage at the Somass sawmills division of MacMillan Bloedel and Powell River Company's Port Alberni unit.

A charge of locking out employees Sept. 4, brought by Local 1-85 International Woodworkers of America against the company, was dismissed.

An appeal against the convictions may be lodged, defence counsel Alex Macdonald said, estimating a week to decide on the action.

Mr. Strachan, asked to comment on the case, said it bears out what he called for last

week, "restoration of equality to labor-management affairs."

"This is an indication of the sort of thing that is happening under our laws . . . There is a breakdown of labor-management relations."

"Unfortunately there is something more basic than this involved. It must be something very bad to allow this sort of thing to happen."

One of the reasons for the

breakdown, he said, is that decisions are made so far from the plant site, "... too many decisions are being taken away from local management."

Earlier, Mr. Strachan had called for a full-time minister of labor rather than one man holding another portfolio, establishment of a labor-management-government board to study socio-economic problems of mutual concern, and repeal

of anti-labor legislation such as Bills 42 and 43.

The strike occurred when one of 48 boommen objected to another man being made temporary charge hand in the absence of the regular charge hand who was filling in for a man on vacation.

Heinz Struck claimed he should have been given the temporary job because he had about one month more seniority.

It is Ed Newfield, the man who actually got the job.

Boom men and the union local took the stand that seniority should prevail in such appointments since it is mentioned before other factors in the union contract.

The company interpreted the agreement to mean it is management's prerogative to make such appointments on the basis of competency, but with regard to seniority.

When neither side would give in and discussion broke down, the men adamantly refused to work and the rest of the operation was told to go home.

Work was resumed after a labor department conciliator got the sides together.

Funeral Saturday For CCF Veteran

A pioneer member of the CCF party, Dr. John Morris Thomas, died Monday at the age of 72.

Former CCF national leader M. J. Coldwell, a long-time friend, will be one of the honor pallbearers at Dr. Thomas' funeral Saturday.

Dr. Thomas was a CCF candidate for Esquimalt-Saanich in three federal elections—1945, 1957 and 1958—and a well-known local member of the party.

TEACHER'S DEGREE

Born in Victoria, he attended Victoria High School, Vancouver Normal School, the University of Manitoba and the University of Toronto, where he received a teacher's doctorate.

He farmed on the prairies in the 1920s, and it was there that he first became interested in politics, becoming one of the first members of the CCF

Apartment Rezoning Opposed

Residents in the vicinity of Lansdowne and Richmond Roads Monday petitioned Saanich council not to rezone for garden apartment use 1.3 acres of the estate of the late G. H. Walton.

"We consider that complete single family use on the edges of the University campus is much more desirable than the proposed small garden apartment development," said J. H. Harding, spokesman for the group.

The property, on the south-east corner of Richmond and Lansdowne, was rezoned by council from a single-family residence to garden apartment use following a public hearing on Nov. 26.

But council at the time decided it would not give final reading to the rezoning bylaw until the lands and planning committee completed its recommendations on regulations of garden apartment development.

Mr. Harding told council that residents in the area did not appear at the public hearing to oppose the application because they didn't know about the meeting.

He admitted legal notices announcing the date of the meeting were inserted in newspapers.

But he pointed out most people never look for or see legal notices because they are seldom affected by them.

Councillors assured property owners that when the zoning bylaw comes up for final reading, they would consider their objections before deciding to permit an apartment on the property.

NEW SAANICH HALL PLANS MOVE AHEAD

A sum of \$6,000 was set aside by Saanich council Monday for the preparation of sketch and site plans for new municipal hall in the Swan Lake area.

The proposed hall to replace the Royal Oak building is expected to cost at least \$300,000.

Reeve Stanley Murphy said an architect would be engaged to prepare sketch plans after the town planning department finds a suitable location for the building and draws up a plan for developing the site.

The building will be erected in the vicinity of the new police-fire hall and health and welfare building overlooking Swan Lake.

Construction is expected to start next year.

Other members of the delegation will be John Di Castri

Islanders Will Attend Bishop's Consecration

A large delegation from Victoria and Vancouver Island will attend the ceremonial consecration of Father Rémi De Roo, Roman Catholic Bishop-elect of Victoria, in St. Boniface Basilica, Manitoba, on Friday.

The new bishop will be installed in St. Andrew's Cathedral here on Dec. 20 at 7:30 p.m. by Archbishop William Duke of Vancouver.

Attending the consecration at St. Boniface will be Father Michael O'Connell, vicar capitular of St. Andrew's Cathedral, Victoria; Father Philip Hanley, pastor of Assumption parish, West Saanich; Father Jean-Paul Belanger, command R.C. chaplain Pacific Coast; Mother Mary Angelus, Provincial of the Sisters of St. Ann, and Sister Mary Monnina, Superior of St. Ann's Academy.

Payments under Canada's Prairie Farm Assistance Act are expected to total \$1,200,000 for 1962.

ELECT WILLIAMS X FOR INDEPENDENT ALDERMAN

brooke, Que., and Most Rev. Martin Johnson, coadjutor archbishop of Vancouver.

Sermons will be given by Most Rev. Philip F. Pocock, coadjutor archbishop of Toronto, and Bishop Alme Gravelbourg, Sask.

Father De Roo will be consecrated by Archbishop Maurice Baudoux of St. Boniface, assisted by Archbishop Georges Cabana of Sherbrooke, Que., and Most Rev. Michael Griffin, Vicar

and William Mahoney of Port Alberni; Father Donel Lehane, Campbell River; Monsignor A. G. Baker, Nanaimo; Mrs. A. C. Niehaus, Chemainus, diocesan president, Catholic Women's League, and Mrs. J. A. McLellan, Victoria, past president.

Father De Roo will be consecrated by Archbishop Maurice Baudoux of St. Boniface, assisted by Archbishop Georges Cabana of Sherbrooke, Que., and Most Rev. Michael Griffin, Vicar

and William Mahoney of Port Alberni; Father Donel Lehane, Campbell River; Monsignor A. G. Baker, Nanaimo; Mrs. A. C. Niehaus, Chemainus, diocesan president, Catholic Women's League, and Mrs. J. A. McLellan, Victoria, past president.

The new GE blender is one gift the whole family will use and enjoy. It blends, chops, mixes and shreds, and does a real job preparing drinks of all kinds. 36 ounce break resistant decanter has pouring lip and handle, and two piece funnel lid. The ladies will appreciate its low 10 1/2" silhouette...it stores as a unit.

GE DELUXE FRY PAN

Deluxe frypan that fries, stews and bakes for her too...it has a fifth leg that swings down to tip the fat away. And, there's a tilt lid that sets at an angle to reduce spattering. Best yet, the heat control is detachable to let her completely immerse the pan for cleaning.

GE MIXER

A beautiful, streamlined mixer to make light work of all her mixing jobs...it's specially designed with beater ejector and handy 3-speed control on top. What's more, there's an exclusive whipping disc...plus an optional knife sharpener that plugs into the mixer. Pink, yellow, turquoise or white.

GE IRON

Irons, steam or dry beautifully, at the touch of a button. Choose your setting and see how it irons all fabrics, even synthetics, without scorching. (There's a special setting for wash-and-wear). Press another button and a fine spray of warm water sprinkles extra dampness when and where it's needed.

GE AUTOMATIC ELECTRIC CAN OPENER

A gift for the homemaker who has everything...but the convenience of opening cans electrically, in seconds! It mounts on the wall, or stands on legs on the counter ready to open cans at a touch...neatly, smoothly and safely. A marvellous magnet grips the lid, holds the can till you release it. Turquoise, yellow or white.

GE AUTOMATIC TOOTHBRUSH

The cordless power toothbrush is the gift solution of the year. And, it's a family gift because it comes with 4 colour-coded snap-in brushes. It's completely safe, and clinically-proven to be 10 times more effective than hand brushing. The holder automatically recharges the battery powered handle between brushings.

GE TOAST-R-OVEN

It's new, it's different, it's the Toast-R-Oven. It toasts to your taste...any size, any thickness, from light to dark. When toast is ready, the glass door lifts, the rack slides forward...automatically. It bakes to your taste too...beef loaf, individual pies, potatoes, desserts. Muffins and rolls to warm or top brown...do them at the table. A beautiful gift...new, different, versatile, practical.

GE HAIR DRYER

It's whisper-quiet, light and portable. The extra large bouffant bonnet has a special inner liner for fast, all-over heat and comfortable drying. She can choose from three heats plus a refreshing cool setting; and check her hair anytime through the adjustable opening on the bonnet. The dryer is tawny beige in an oyster white travel case.

ONCE SUPREME, BASEBALL SLIPPING . . .

'PEACH PITS' WORRY GOLF PROS

'What Are They Talking and Reading About?'

NEW YORK (AP) — Football is riding a wave of national popularity and interest in the United States. Baseball, once supreme, has slipped seriously.

Basketball interest is spotty, as are almost other sports with the exception of golf.

These conclusions are based on personal observations of the sports scene throughout the U.S. in recent months. No reference has been made to gate receipts. Emphasis was placed on fan interest—what they are talking and reading about.

Professional football has made the most startling gains, not only at the box office but in general fan interest. It is producing most of the new American sports heroes.

Hal Malone
LOOKS AT SPORTS

In the days before television came into the home, challenged humanity's sanity and won, basketball had an air of popularity matched by few sports.

Your agent can remember climbing into a Model A, wheezing to assorted gyms in Vancouver, and making like a sardine with 1,500 galoots to watch the melon masters.

Make that monsters. In the prewar era senior basketball was a man's game, played with adult muscles, elbows, knees and hips. There were shooters and fancy pass patterns to appeal to the kind hearts and gentle people.

But the action which pulled customers into the hoop places was the solid whomp, whomp, whomp of bodies. No respectable team was without its policeman. Some had a wrecking corps of which Al Capone would have been proud.

'Twas Whistle-Tooters' Symphony

Then TV came along, making stay-at-home fannies out of fans. Simultaneously certain clean-living souls decided the game ought to be refined. They changed the rules. Thereafter if a player so much as dared lay a finger on some goon's undergarment, he was set upon by a brace of officials blowing whistles, faces purple with outrage.

Instead of a game, basketball turned into a whistle-tooter's symphony, flatter than Brahms' stuff, and much more boring. Almost without exception the little fellow with talent and a knack of applying body English at appropriate moments was swallowed up by hyperpituitary specters operating under a protective rules stockade.

Nearly every contest was marked by processional walks from one foul line to another. The referees became better known than the players.

A look at the current model Saturday at Central Junior High disclosed that they have given the old girl a new dress. It's not yet a Dixie model. But remember this is written by one who would rather drink a Bronx cocktail than speak well of genteel, nap-inducing basketball.

Yet it must be confessed that there have been few sports shows recently which lifted the hackles and stirred the pulse quite so thoroughly. Judging by the acclaim of 250 spectators, the reaction was widespread.

'Baby' Made 'Poppa' Light Up

Haida Chiefs, New Westminster, Vancouver and Harlem Nighters now operate under international rules. This means no foul shots are permitted until the last five minutes of each half—with one exception. Any player fouled while shooting still gets his gratis flings. Two of them. Before that, the team fouled gets the ball on the sidelines.

The result is a fast, flowing contest. This one was. The Haida Chiefs, still intoxicated by the fumes of their first victory on Thursday, went at New Westminster with all caravans open.

The visitors act distinguished and poised on the court as befits their reign of provincial champions, circa 1961-62. Even when they trooped off at halftime for fresh oxygen, they didn't seem dismayed at being down 38-35.

In the corridor, Nell Sprinkling paced nervously like an expectant father. The Chiefs are his baby. Have been for four years.

The baby was showing signs of walking right over the (legally) best team in B.C.

"Not so fast," said Sprinkling. "There's 30 minutes to play."

"Too bad the house is so small," a man said.

"I'm satisfied," said Sprinkling. "We made money tonight. Got \$100 in the till. Last week we only had \$10."

He fumbled with a package of cigarettes. "I wish I could shake this," he said. "I quit for 10 years, then this basketball started, and . . . here, have one."

D Is for Darrell—And Dandy

The second half seemed to fly by. It was short and sweet for Haidas, long and sour for New Westminster. Darrell Lorimer made it that way.

He is a gaunt, pale, handsome young case of malnutrition who makes attendance at Haida games worthwhile. He was a legend in high school and at Victoria College. Would have been wearing University of Oregon colors this year had he been able to cope with his studies as well as he handles a basketball.

Hooks, layups, long ones, he does them with classic grace. He played 28 minutes, scored 27 points. Other members of the cast, notably Morris Martin and Bob Tomlinson, merit large medals for accuracy. Strike one, too, for John Devlin, raw-boned and sure-handed, a devil on rebounds.

Outside the Westminster dressing room, their licensed genius Fred Collen ponders his team's defeat.

"We missed Dave Osborne," he said. "He's our first-string centre and top scorer. But we wouldn't have won even with him. This is a pretty good team, you have. Especially that No. 23."

That would be Lorimer, Darrell.

"Yeah," said Collen. "As long as Nell has him, he has a Sprinkling of hope."

TROUBLE SHOTS

Too many golfers hate to admit to unplayable lie. Or, they try to get too much distance out of a shot from a troublesome lie.

Result? Three or four strokes over par instead of just one over.

If your ball is under some trees or close by some bushes where your backswing is restricted, for instance, why not face facts?

Don't try to hit the ball on the green. Concentrate on getting the ball out where you have a free swing. Those overhanging branches can cause you to top the ball or to hit into worse trouble.

Do as the illustration shows. Limit your backswing so it won't hit the branches. You

West's Perfect Record In Saskatoon's Hands

SASKATOON (CP)—Saskatoon Quakers leave today for next year for the 1963 world championships in Sweden.

Europe and a 13-game exhibition tour of Sweden, Switzerland and Czechoslovakia, seeking from behind to subdue Quakers in the 1962 western

seas record by hockey teams from Western Canada.

Never has a western club failed to return victorious from either world or Olympic championships or exhibition tours.

The Quakers, comprised entirely of Saskatchewan-born players, will put the record on the line, playing two games in Sweden, nine in Czechoslovakia and one in Switzerland.

This is the fifth year that the Canadian Amateur Hockey Association has sent a team on an exhibition tour of Europe. Port Arthur Bearcats toured Czechoslovakia and Sweden last year. The Saskatoon tour this year is an exchange tour that will see a club from Czechoslovakia tour Canada next season.

Their progress will be watched closely by Trail Smoke Eaters, current Allan Cup champions, who leave

SPORTSWRITERS HELP

TORONTO (CP)—A \$200,000 swimming pool, donated by the Ontario Sportswriters and Sportscasters Association, was formally turned over to the Ontario crippled children's centre Monday.

Don't try to hit the ball on the green. Concentrate on getting the ball out where you have a free swing. Those overhanging branches can cause you to top the ball or to hit into worse trouble.

Do as the illustration shows. Limit your backswing so it won't hit the branches. You

WHO'S THAT FIGHTER?

'It Was Foggy, See . . .'

LONDON (AP)—The mystery of Belarmino Fragoso,

Portuguese lightweight boxing champion who claims someone impersonated him in a London

ring remained unsolved Monday night.

The man who was expected

to throw light on the strange

story—Pedro Caballero, Fra-

goso's Spanish manager—

failed to arrive in Britain as

expected.

A fighter billed as Fragoso

formally turned over to the

Ontario crippled children's cen-

tre Monday.

The pros also seem to have had the effect of turning football into a game of national, rather than sectional, interest and a year-round conversation piece. The college game has received a lift.

Baseball is not ready to shrivel up and die, but it no longer seems to grip fans' interest as it once did.

A good example came in the recent rash of big baseball trades. Not too many years ago, almost any one of the trades would have stirred interest for days. This year they seemed to go almost unnoticed.

But the defeat of Green Bay Packers by Detroit Lions and the wallop of Baltimore Colts by Chicago Bears generated much more talk. At the same time, fans follow the fortunes of college teams far afield.

A sports fan doesn't have to think back many years to remember when tennis, the Poughkeepsie regatta,

boxing, basketball, horse racing, the big golf tournaments and track and field held the national interest in turn

—with baseball lording over all as the year-round conversation piece. Each sport produced national heroes.

Boxing is practically dead except for the big bouts. Scandals have hurt basketball in many areas. Horse racing seems to be standing still although, at a high level, Tennis is hurt by the lack of an outstanding American player. Other sports seem to have settled into pockets of enthusiasm here and there.

Golf interest is high, but at the Professional Golfers' Association meeting in Palm Beach recently the pros

themselves said they were worried about the effect of too many peach pit opens, as they call the weekly stops on the tour.

If fan reaction is the best guide, the apparent fall in baseball interest is caused by: 1. Too many teams;

2. Too many names; 3. Too many games.

A good guess might be that, while other sports thrive on change, continuity is baseball's strongest point. This has been lost in recent expansion, with more teams and more players, plus a tendency to overstay its welcome on the national scene.

Football games, on the other hand, seem to be nicely spaced to give time for enthusiasm to build, an interest that carries over to the off-season.

CAREERS IN DOUBT

Making the best of bad situations are Harry Jerome (top), Canada's ace sprinter, and Bill Kilmer (bottom), star halfback for San Francisco 49ers. Jerome underwent operation in Vancouver hospital last week for muscle tear in left thigh, sustained in British Empire Games century dash at Perth. It will be six months before he will know if he can run again. Kilmer suffered broken leg in car crash but perked up when nurse Joan Scott offered sip of orange juice. His career remains in doubt because of injury. (CP-AP photos)

Canada Clinches Second Place in World Tourney

Nats Too Strong For Puerto Rico

MANILA (AP)—Canada's Lethbridge Nationals defeated Puerto Rico 80-66 tonight and clinched at least second place in the Philippine invitational basketball tournament.

The steady Canadians would up their games in the seven-nation round-robin tournament with five wins and only one loss to the first-place Americans. The U.S. team, undefeated, could wrap up the tournament by beating the Philippines Thursday.

If the U.S. loses to the Philippines—which isn't considered likely—the Canadians and Americans will play off to break the first-place tie.

With sharpshooting Harry Blacker, Gordon Fester and Lance Stephens setting the pace, the Canadians broke loose from the Puerto Ricans after a closely fought first half. Puerto Rico held a one-point lead, 35-34, at the end of the first 20 minutes of play.

Spain beat Australia 86-71 in a rough second game in which the two teams committed a total of 61 personal fouls—32 by the Spaniards and 29 by the Aussies.

Fester, six-foot-five Edmonton native, led the Canadian attack with 15 points while Blacker, a Lethbridge native, was one behind with 14. Stephens, also six-five, had 13 points. A Vancouver native, Stephens played college basketball with McMurry College at Abilene, Tex.

Bob Inglis of Calgary, the giant of the Canadian squad at six-eleven and 245 pounds, scored 10 points while Neil Dirom had eight.

'We Came to Learn And We're Happy'

TEE TOPICS

By ERNIE FEDORUK

Now that it's become a habit, it's hard to kick those Boxing Day tournaments.

Thanks to an invitation from Colwood, the Christmas Tree Tournament is scheduled to be run off for a ninth consecutive year. But there's opposition this year, with Victoria Golf Club, Cedar Hill and Gorge Vale also planning tournaments for Dec. 26.

The Christmas Tree Festival, a fixture at Victoria for the first six years, was waved on by the Oak Bay course in 1960. Uplands took it for the next two years but the clubhouse fire there this year threatened to put an end to the annual affair.

Colwood made its pitch, so it continues.

Entry is limited to 120 players, including men and women. Entrants must have bona fide CLGU or RCGA handicaps.

Victoria Club, which didn't want a tournament on its grounds the holiday, comes up with a mixed foursome event on the day. Tournaments at both Gorge Vale and Cedar Hill are for members only.

With a break from the weatherman, it is expected that over 340 golfers will be playing on Boxing Day this year.

Ron MacLeod and Roy Chappell, who originally picked up the Victoria District Golf Committee's open buttons from their Cedar Hill rivals, were forced to hand them back to Dick Munn and Cary Greenwood on Sunday. Munn and Greenwood combined for a 2 and 1 triumph at Colwood.

Greenwood chipped in for a birdie on the ninth to give the Cedar Hill pairing a 2-up lead at the turn, but Oak Bay's pro pairing came back to square the match after 13 holes. Munn's birdie on the 14th and another birdie by Greenwood on the 15th settled the match.

Colwood's Ricky Kent and Gary Smith retained the junior buttons with a 5 and 4 victory over Gorge Vale's Vic Denman and Earl Francis.

SHORT CHIPS: Delayed third (and final) round of the fall monthly medal series has been rescheduled for this coming Sunday. It will be played at Colwood instead of Oak Bay. Uplands closed its course last Wednesday, marking the first time in history that the club bowed to rain.

Vic Painter and Leo Shields defeated Jack Parker and Cam Masssey, 4 and 3, to become the new holders of the Bryant Trophy at Colwood.

In case you missed it, Colwood's recent annual general meeting approved a raise in dues. It's \$140 now, was \$120. For comparison, other annual dues: Oak Bay \$144, Uplands \$96 and Gorge Vale \$80.

Colwood's membership also installed Laurie Burt as the new president, succeeding Don Ross. Dr. Hugh Borsman was elected vice-president and Bill Garner and Ralph Baker were re-elected as captain and vice-captain, respectively. Eric Moir, Jack Parker and Bob Hagel complete the directors.

John Merriman's two-over-par 72 was the best score recorded as 148 Gorge Vale members went shooting for turkeys Sunday. 26 birds were given away.

Cowood and District Committee executives will soon get busy with preparations for the Canadian junior golf championship. Course grooming will commence next month at Cowood, site of the junior classic Aug. 27-30.

PET POINTS

By Dr. J. R. Emas

Rob Epp

Is a Tapeworm a Worm?

Yes and it may grow several feet long inside dogs and cats.

Clinic: Q. We love our blond Cocker dearly, but he has a problem with stomach gas that creates a terrible odor in the house. Can you tell us what we can do to eliminate this gas trouble? He's 12 years old.

Mrs. R.L.C., Sedona, Ariz.

A. This condition, known as flutulence, is excessive gas production caused by normally present intestinal bacteria. This condition can be aided by Lactobacillus tablets or Acidophilus tablets, both available at your drug store. Consult your veterinarian for the proper dosage for your size dog.

Clinic: Q. I have a female, 7-month-old kitten who won't eat anything but boiled whiting fish and raw beef.

ask Andy

HE GIVES AWAY GRAND PRIZES

Is there something you want to know? Do you want to win a set of valuable books or other incentive prizes? Then ask Andy. Andy will answer questions submitted by solid readers and those who submit the questions he selects to answer will receive valuable prizes. The youngster who asks the first question answered each day receives a 20-volume set of the World Book Encyclopedia and one of the second ques-

Andy sends a complete, 20-volume set of the World Book Encyclopedia to Barbara Robles, age 10, of Florence, Ariz., for her question:

What Is Beyond the Solar System?

Our clever scientists use telescopes, radio telescopes and other instruments to probe the vast universe beyond our small home in the heavens. Soon we shall reach our neighboring planets, but we have to stretch, stretch our imagination to grasp the vast oceans of space beyond our solar system. However, someday we hope mankind will visit the planets of far distant suns.

The starry heavens are beyond our solar system. The Milky Way is the hub of a huge pinwheel system of stars called the galaxy. Millions of other galaxies called Island Universes are scattered across the vast oceans of space. We must stretch our imagination to grasp this tremendous cosmos, and one way to do this is to imagine a space voyage.

Let's board a super-space-ship which can travel at 670 million miles an hour. If we head toward the sun, we shall be there in eight and a half minutes. But we shall head in the opposite direction, out to the rim of the solar system. In about five and one-half hours we shall cross the orbit of Pluto, the outer planet, and leave the solar system behind us. We are heading for bright Sirius, the Dog Star.

Our ship is traveling at about the speed of light, but our voyage across empty space will take more than eight and a half years. If we headed in another direction, toward Alpha Centauri near the Southern Cross, our ship would have to travel through space four years and four months to get there. Now, let's voyage on beyond the Southern Cross to the centre of the Milky Way.

Here and there we pass through huge, hazy clouds of glowing gases. As we near the hub of the Big Wheel, the stars become closer, and in about 26,000 years we reach the centre. We voyage on, and in another 40,000 years we leave our wheeling galaxy behind us. We are on our way to a neighboring Island Universe, and this lap of the voyage across space will take us about one and a half million years of travel time.

Let's board a super-space-ship which can travel at 670 million miles an hour. If we head toward the sun, we shall be there in eight and a half minutes. Knife Fight Sends Youth To Hospital

Seven In Battle At Courtenay

COURTENAY—Stabbed nine times with a knife in a fight on Mission Hill Sunday, a young Courtenay man is in good condition in Comox Hospital today. The fight was between seven local, Victoria and Duncan youths.

Mike Carey, 22, was stabbed six times in the back, once through the hand, once in the arm, and had the tip of a finger sliced in the bloody fracas.

Another man, Godfried Anderson, 29, of Tsawain, was cut in the left side, left-hand and right hip. He was treated for the knife wounds and released from hospital.

Five men and one juvenile were charged Monday with creating a disturbance by fighting and were remanded to next Monday.

JUVENILE

Charged in police court were: Godfried Anderson, Harvey Ronald Brown, 21, Royton; William Donald McLeod, 20, Glacier View Drive; Lloyd Douglas Kennedy, 18, and Edward Charles Lumley, 18, both of Victoria, and a juvenile, 17, from Duncan.

Only plea taken was from Brown who pleaded not guilty. Bail was set at \$250 each for the five. The juvenile was to be released in custody of his parents.

RCMP said a charge is also pending against Cary, the victim.

Crown prosecutor Douglas Ruddell advised Magistrate John Ryland more serious charges could be laid when the investigation is completed.

18 Months Jail For Four Thefts

COURTENAY—William James Hilton, 25, of Nanaimo and Cumberland, was sentenced in police court Monday to 18 months in prison for four break-ins and thefts a week ago at Courtenay and Cumberland business premises.

He pleaded to the charges before Magistrate John Ryland.

Seven pistols were stolen from a sporting goods store here and small amounts of cash, a radio and other items from a hotel, a shoe store and hardware in Cumberland.

Police said Hilton had no intention of committing any offences until he fell in with other men while hitch-hiking from Nanaimo to Cumberland.

Charges have been laid against three other Victoria men who are due to appear in court Wednesday, in connection with the same offences.

Dr. Lott Named President By Naturalists at Duncan

DUNCAN—Dr. D. Lott was elected president of the newly formed Cowichan Valley Natural History Society at its inaugural meeting here Saturday.

Mrs. Tosca Oyen was elected secretary, while Mrs. Richard Christmas was named to lead the junior section.

More than 100 persons attended the meeting in St. John's Church Hall. Three groups—bird, zoology, botany—were formed for members interested in the study of these subjects.

Freeman King, president of the junior section, Victoria Natural History Society, spoke on the formation and function of the society, while Mrs. Enid Lemon, vice-president of the Victoria Society, gave an illustrated address on different features of natural history work.

Dr. John Chapman of Victoria, spoke on entomology.

Arrangements were also made at the meeting for junior members of the Victoria Society to visit the Cowichan Valley on Dec. 28. The young people will give their counterparts a demonstration of field work.

Tom Briggs of the VNHIS bird group will visit the Cowichan

CANADA'S NEWEST fisheries' vessel—the \$1,800,000 G. B. Reed—arrived at her Nanaimo base today where she will prepare for service and year round work in the Pacific.

Built at Yarrows Ltd., the 177-foot vessel underwent her trials in Esquimalt recently. She is equipped with five laboratories for scientific studies.

ISLAND DIGEST

Duncan Bay—Seahorse, Alberni—Migolina, Roland, Gudivor, Ancora, Otto Bank.

Only plea taken was from Brown who pleaded not guilty. Bail was set at \$250 each for the five. The juvenile was to be released in custody of his parents.

RCMP said a charge is also pending against Cary, the victim.

Crown prosecutor Douglas Ruddell advised Magistrate John Ryland more serious charges could be laid when the investigation is completed.

Fund Started For Duncan Show Rider

DUNCAN—The Cowichan District Riding Club is sponsoring a fund to assist the family of Ed. Lister, well-known show rider, who was recently injured while riding a horse on the Trans-Canada Highway.

The fund committee is composed of Bob Batty, chairman, Mrs. H. H. Norcross and Miss Shirley Burr of Queen Margaret's School.

Donations should be sent to Mrs. Norcross, R.R. No. 4, Mays Road, Duncan. Cheques should be made payable to the CDRC Lister Benefit Fund.

Mr. Lister suffered serious head injuries when he was thrown from his horse.

Officials of King's Daughters' Hospital report he is "improving slowly," but is still unable to recognize his friends.

Dr. Lott Named President By Naturalists at Duncan

DUNCAN—Dr. D. Lott was elected president of the newly formed Cowichan Valley Natural History Society at its inaugural meeting here Saturday.

Mrs. Tosca Oyen was elected secretary, while Mrs. Richard Christmas was named to lead the junior section.

More than 100 persons attended the meeting in St. John's Church Hall. Three groups—bird, zoology, botany—were formed for members interested in the study of these subjects.

Freeman King, president of the junior section, Victoria Natural History Society, spoke on the formation and function of the society, while Mrs. Enid Lemon, vice-president of the Victoria Society, gave an illustrated address on different features of natural history work.

Dr. John Chapman of Victoria, spoke on entomology.

Arrangements were also made at the meeting for junior members of the Victoria Society to visit the Cowichan Valley on Dec. 28. The young people will give their counterparts a demonstration of field work.

Tom Briggs of the VNHIS bird group will visit the Cowichan

531 BASTION

TEMPORARY HAVEN for student cars at Oak Bay High has its disadvantages, but young drivers don't mind. Here, a group surveys the "parking

lot" made available by school board purchase of old property off Fort Street. Boys hope permanent solution may be found to parking problem.

Student Cars—Back to Streets Again

Student drivers of Oak Bay by Greater Victoria School Board have found a temporary solution to the problem of "where in heck can we park them?" by assuming squatters' rights on a 100 by 330-foot tract recently acquired.

An average of 20 to 30 auto-

miles of all vintages now sit brought from California, and there in the shelter of orchard and ornamental trees while their owners are cracking the books.

Apart from an injunction by Oak Bay High principal Charles A. Gibbard to keep the lot tidy, the boys have drawn no official attention.

When The Times looked in on the car park Monday, the grounds were spotless, not a scrap of litter in sight. The only students in evidence were studying in the seclusion of their cars for looming Christmas examinations.

"They know we're using the lot," said Brent Simmons, 17, of 2999 Eastdowne, "but they haven't interfered with us. It's a break, being able to get our cars in off the streets, and we appreciate it. We're policing the lot ourselves—doing our best to keep it clean."

Another lad suggested that perhaps sometime in the future, student drivers might have provision made for their cars in the area back of the school, along the Bowker Creek bank.

"There'd be plenty of room," he said, "and we wouldn't be in anyone's way."

IN HIGHER GRADES

Most of the car owners are in Grades 11 and 12. When or if they move on to Victoria College, they will find adequate student parking provided. Some live close to their school, but a number come from outside areas. Without ears, a lengthy bus trip would be necessary for some of them.

The land in question formerly belonged to the pioneer Casanave family, which settled there in the 1860s. One ornamental redwood was

Thieves Fail In Attack On Wall Safe

City police are investigating two Sunday night break-ins. The premises of Goodwill Bottling Ltd., 35 Erie, was entered through a west side window which was forced.

The dial was knocked off a wall safe, and the would-be thieves had chiseled at the side of the casing.

The safe was not broken into, however.

But a tool box containing over \$50 worth of tools was taken from the boiler room.

WHISKY CONSUMED

A cupboard door also was forced open and part of a bottle of rye whisky consumed.

An unknown amount of money was taken from a cigarette machine at Menzies Fish and Chips, 211 Menzies, over-night as well.

Entrance to the building was gained by forcing a piece of plywood in a rear window.

Police said the door to the machine had been sprung open with a small hatchet.

Thieves were surprised while attempting to break into a safe at Weston's Bakery, 754 Fairview, Saturday night.

The dial to the safe had been knocked off, but nothing was taken.

Compensation to owners of

some 19,250 hogs slaughtered in Ontario and Quebec in a 1962 hog cholera outbreak was \$637,328.

VICTORIA DIVORCES

Divorces were granted in B.C. Supreme Court Monday:

Vera Guest, 2755 Cook Street, Victoria, from William A. Guest, 169 East Hastings Street, Vancouver. They were married at Stockport, Cheshire, England, in 1946.

Cordelia France, 3840 Rowland Avenue, Saanich, from Gordon M. France, Kamloops, B.C. They were married in Victoria in 1942.

Mother Cecilia told council

Good Shepherd Move To Country Suggested

Relocation of the Good Shepherd Animal Shelter, 4151 Borden Street, to a rural district was recommended Monday to Saanich council by the municipal planner department.

Since the purchase of the land, she said, a sum of \$40,000 had been spent on the shelter and further expansion plans were being considered.

While council was sympathetic, it was pointed out that it would be in the interest of the shelter to relocate in a rural district as suggested in a planning department report.

Mother Cecilia told council

Christmas Begins at the Bay

VICTORIA, B.C., TUESDAY, DECEMBER 11, 1962—PAGE 17

ARTHUR MAYSE

Certain jolly elves at Eaton's have allowed me to dip into a pile of letters received, noted, and when there's a return address, answered by the man of the month. I'd like to print all of these our space allows, so without delay, here we go!

DEAR SANTA:
Please bring me a jeep. I also would like a steam roller and a give-a-show projector and slides. One more thing, I would like a building set.

My sister can't write yet but she would like a baby doll so she can put her doll to bed. I've been very good and April's been pretty good too... for a girl!

Thank you,
Ralph.

DEAR SANTA:
Please may I have a wood-burner. And maybe I please have some more train tracks and a tunnel, please. Please may I have a camera and please may I have a alarm clock.

Love, from Roddy.

I'm a good girl. Please, I want a buggy, dresses, pants, apron, and that's all for my doll named Susie, and some for my doll named Betty. Will you please bring Uncle Bill a new chair cause that's what he wants and some slippers for daddy.

Please bring Fluffy Cat a ball and a surprise for Auntie Hattie.

I don't have to tell you I saw you today because you know, only you forgot to ask what to bring me.

Love, Barb.

I like you. You are nice to me. I want some roller skates for Christmas.

Love, Lauren.

Will you please give me a blue truck, blue tractor and 2 to play books. Mike.

Will you please give me at Christmas, a doll, buggy, boat. Kelly.

Thank you, Be careful.

DEAR SANTA-CAUSE:

How are you, I hope you are feeling fine. I have been a good boy but I have been bad sometimes. If you think I have been good enough I would like this for Christmas a two-wheeled bike and four models I will see you soon love from

Glen.

I hope you will like what we leave for you.

When is your birthday?

How are you?

Do you know any Eskimos?

Do you live in an igloo?

I would like a few things. I would like a snow cone

DEAR SANTA:

Please I have been a very good boy. I work in the store very hard. I do not eat any that bad old candy and pop and I dress myself and keep my teeth clean. If you see fit please send me a dump truck and bulldozer.

If some poor little boy is hungry and has no toys you can give it to them.

Thank you very much,
Signed, Steven.

Room for only two more letters. One is from Donnie.

DEAR SANTA,

I want a tether ball and no one believes of you.

But Kirk does. Kirk's message consists of a sparkly Christmas card with a Valentine heart scrawled inside it.

"They're supposed to finish it. But the minute I left the membership drive stopped.

They only got 47 new members."

TOPICS OF THE DAY

Victoria branch of the Canadian Red Cross Society is hoping for good turnouts at its three blood donor clinics this week in preparation for the usual demand for blood around the holiday season.

Clinics will be held: Tonight at Red Cross House, 1046 Fort, from 7 to 9:30; Wednesday, Legislative Buildings, 9 a.m. to noon and 1 p.m. to 4 p.m.; Thursday, HMC Dockyard, 9 a.m. to noon and 1 p.m. to 4 p.m.

Gerald Shepherd, 53, no fixed address, pleaded guilty in city police court Monday to theft of a figurine valued at \$4.95 from the T. Eaton Co. Ltd., Douglas Street, Saturday afternoon.

He was sentenced to one month in prison.

He said he had been drinking at the time.

To demonstrate its support for the Salvation Army, the Gyro Club is taking over one of its Christmas kettles on Thursday.

Twelve club members will man the kettle for one hour each outside the civic polling booth at Government and Cormorant beginning at 8 a.m.

ORNAMENTAL PLUMS PLUNDERED

'Tree Snappers' Strike Again on Oak Bay Streets

Tree-snappers drew the ire of Oak Bay works and parks committee Monday night for the second time within a month.

Two young, newly-planted, boulevard trees were broken off in the 2100 block of Musgrave within the last five days, committee was told.

The ornamental plums were similar to 12 new trees chopped off on Hautain near Florence and Epworth, reported at the previous meeting of the committee.

"I just can't understand the mental attitude of these people," fumed chairman Fred Robinson.

Works superintendent Ralph Fletcher said a whole block of new trees had been snapped off on a Saanich street.

Bachelor Club May Be Halted By Government

Share Selling Scheme Probed

The B.C. cabinet today heard a bid to break up a company operating a bachelors' club in Vancouver and Victoria.

The companies office wants to strike off its register Dolphin Recreations Ltd., promoting a fund drive to build pool clubs for young men and women.

Almo Johnston of Vancouver, a former cemetery plot salesman, who is president of the company, went to the cabinet hearing.

He said the Dolphins have 390 members who have paid between \$300 and \$1,000 in fees. There are "30 to 40" members in Victoria.

So far the club has no facilities.

"We have been having social functions like bowling and badminton at commercial places, but I think I'll stop that now," said Mr. Johnston.

He said he wanted to concentrate on raising money for recreational buildings.

\$100,000 RAISED

A Vancouver Better Business Bureau spokesman estimated the scheme had so far raised about \$100,000 in cash and promissory notes.

The companies office appointed special investigator Archie Plummer, former Vancouver police inspector, to look into the club's operations.

The companies office is arguing that Mr. Johnston's company is selling shares while it has no assets.

Mr. Johnston said he is selling memberships in an unincorporated club, separate to the company.

He said his plan was for the company to "do all the work and the club members to enjoy all the privileges."

\$1 MILLION CENTRE

He said he wants to sell enough memberships to build a million-dollar recreational centre.

This would require 2,000 members in Vancouver and about 1,500 in Victoria, he said.

"It's a lot of fun and I think it's needed."

"I do this for a living—sure I make money at it, but I don't think this condemns it."

He said he had formed a club at Calgary with 1,400 members in one year. A million dollar building was started there and "everything was turned over to the members."

"They're supposed to finish it. But the minute I left the membership drive stopped.

They only got 47 new members."

And in the heart, I love you, Santa Claus."

FULTON PLANS 3-DAY TOUR OF ISLAND

Federal Works Minister E. Davie Fulton is planning to spend at least three days on Vancouver Island during a three-week campaign for the leadership of the provincial Conservative party.

Mr. Fulton will start his drive for Tory support across the province Dec. 23 during the federal parliamentary recess.

The Tory leader will be formally chosen at a convention in Vancouver Jan. 24 to 26.

Mr. Fulton plans to be in Nanaimo Jan. 12, in the Comox-Courtenay area Jan. 13 and in Victoria Jan. 14.

While there is no doubt about support for his leadership bid, a party official said today Mr. Fulton wants to attempt "a big job of rebuilding."

Mr. Fulton will go first to Fort St. John, then visit North Central B.C., the Kootenays, Prince Rupert and the lower mainland.

JUBILEE GRANTS SUPPORTED

Royal Jubilee Hospital president Ian Horne today announced Victoria, Saanich and Oak Bay councils have given approval in principle for grants to help out a new \$1,000,000 expansion.

"Discussions are continuing with Esquimalt and we certainly are grateful for the municipal response," he said.

The expansion will provide an addition to the hospital's laboratory and expansion of the nursing school's residential facilities for students, improvement of teaching facilities and increase in classroom accommodation.

He said his plan was for the company to "do all the work and the club members to enjoy all the privileges."

BENEFACITOR

The hospital is adding \$100,000 of its own funds and a contribution of \$150,000 has been pledged by an unnamed benefactor.

More than 100 eligible applicants for nursing training have to be turned away each year now because of overcrowding. Expansion of the school of nursing would also facilitate eventual efforts to establish a degree course in nursing at Victoria College.

About \$600,000—most of it from the province—will be contributed by the senior governments through normal grants toward hospital construction.

"We hope to obtain BCHIS approval early in the new year so that we can engage architects to design this expansion," said Mr. Horne.

He said the new facilities were badly needed.

"Our laboratory, which serves this whole area, is laboring under a tremendously increased load.

CANT COPE

"And our school of nursing—which was the first established in the Pacific Northwest—had found itself with an increasing number of applications and we just can't cope with the demand with the present facilities."

The Ladies' Auxiliary to the Chiefs and Petty Officers' Association will hold its monthly meeting Thursday at 7:45 p.m. in the Orange Hall.

The auxiliary recently knitted 33 shawls which were presented to the Victorian Order of Nurses for distribution as Christmas gifts for senior citizens.

Mr. Horne said the expansion plan is a "package proposal" involving both the school and laboratory. He said most of the expansion would be for the school but was not prepared to cite the breakdown of costs at present.

"We will be releasing the full details of this program in January," he said.

Police said total bill came to \$707.77.

Swain also pleaded guilty to a second charge of stealing a transistor radio from a private home.

He was remanded to Dec. 17 for probation report and sentence.

Police said total bill came to \$707.77.

THE BETTER HALF

By Bob Barnes

*"He won't tell me what it is—I'm scared to death it's my Christmas present!"*

SHOPPING GUIDE

Exotic and Exciting Gifts From Far Away Places

By Penny Saver

Since one Penny reader phoned to find out where she could buy a fancy box of candied southern fruits, perhaps there are others wondering the same thing. This particular caller wanted to send a package to friends on the prairies. No doubt she plans to do a little bragging about Victoria and will seal a gift tag over the Florida or California-label, saying "just thought you might enjoy a little treat from our backyard."

No matter where it comes from, or where it goes, every bite of these delicious treats are sure to be enjoyed. The candied dates, all dusted in coconut, looked the most tempting to Penny and they sold at \$1.89 a box. Other boxes of candied fruits, including apricots, figs, cherries and dates are priced at \$2.49 and \$4.95.

Another gift item that is especially welcomed by those with an English heritage is a good blend of tea. A tea sampler worth \$1.25 is made up of small packages of orange pekoe, Chinese jasmine, Darjeeling and English Breakfast teas. Larger sets and different blends are also available.

Earrings and brooches which are very delicately carved in ivory are imported from India and Hong Kong at prices starting at \$1.95.

A new shipment of Moroccan leather handbags has just arrived in time for Christmas. These are pouch style bags with draw string handles, all made from the softest sheep skin leather. The colors are rust, tan, beige and a deep red. The smallest pouch, with six outside pockets around the bottom, is \$4.95. The largest and most expensive is \$8.95 and in between there are two prices and sizes.

If Penny has listed something for somebody on your list phone 382-3131.

Flegg-Boucher Wedding In St. Matthias Church

Canon R. K. Sampson officiated at a ceremony in St. Matthias Church which united in marriage Claudia Ann, daughter of Mrs. Earl Boucher, 131 Battledore Avenue, and the late Mr. Boucher, and Robert Stanley Flegg, son of Mrs. Lois Bondesen, 3301 Wordsworth Street, and Stanley Flegg of Calgary.

The bride wore a pale yellow gown with a silk eyelet lace panel in front. Bodice featured a round neckline with a bow and streamer accenting the back. She wore matching accessories and carried a corsage of yellow carnations. For "something borrowed" she wore a ring belonging to a friend. She was given in marriage by Wif Schell.

ATTENDANTS

The bridesmaid, Miss Judy Harding, wore a gown of pale green lace over taffeta, with toning accessories. She carried contrasting corsage.

Petite Valeria Royston was flower girl in a yellow nylon frock with satin sash and matching bonnet. She carried a corsage trimmed with yellow satin streamers.

George Nessel was best man. Ushers were Joe Hadley and Wayne Flegg.

A three-tier wedding cake and bouquets of lily of the valley decorated the bride's table at a reception held in the home of Mr. and Mrs. W. Schell, 202 Raynor Street. Uncle of the bride, George Gandy, proposed the toast.

The newlyweds are now living at 315 Island Highway and will later make their home in Calgary.

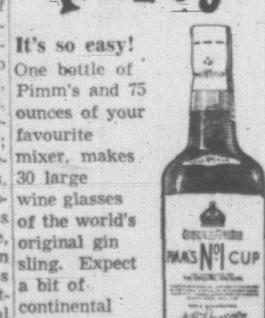

BE SMART—

Be the hit of your crowd, crowned in a stunning new hat. The shape's the basis, upon which to dream up a distinct personality, via your own imaginative touches. For example, try a silk bow, pinned with a bit of a jewel to dress up a cocktail hat. Or effect a fringe at the forehead with a cluster of glossy rich black feathers.

THIS YEAR

Make Gifts Look Smart And Pretty

"OOOh! It's too pretty to open!"

Ever get this reaction to a gift you'd wrapped? If the answer is no, don't feel badly. Most of us are better at buying gifts than wrapping them. But anyone can become expert with a few tips and a lot of imagination.

Here are a few basic rules to follow:

Cut your paper large enough to have an inch overlap on the back seam, and the paper should extend over the box at either end a little more than half the depth of the box.

Always secure the paper with tape, or thumb tacks or even staples. Don't expect the ribbon to hold the paper on the package. Ribbon is only for decoration.

A smartly-decorated package makes the difference between a nicely-wrapped gift and a gorgeous showpiece. Anyone can make bows, the experts say. Secret is ribbon that sticks to itself.

Here are instructions for those in the picture.

KNOTLESS BOW

Cut 12 strips of ribbon (any width) 11 inches long. Crease to mark the centre of each strip. Moisten both ends and press to the centre. Repeat for all strips. Then, using one piece as base, take a second piece, moisten in the centre and attach in a criss-cross fashion to the first. Add third and fourth strips diagonally. Continue until all strips are used.

CIRCLE BOW

Moisten the end of a strip of ribbon and form a small ring. Without cutting ribbon, make a second ring slightly larger around the first, moisten and join atop first seam. Continue adding a slightly larger ring each time, until the bow is the desired size.

This basic figure can be used for many lovely designs. A ribbon butterfly is made from two large and two, slightly smaller circle bows. Pinch each circle bow into an oval shape. Moisten each at the seam and join, using the larger bows at the front, the smaller at rear. From dark ribbon, cut out a body shape. Moisten and attach. Cut another long strip, form rings at either end and fold in the centre. Attach an antenna.

Or, the same basic circle bow, pinched into an oval, becomes the flame on a home-made paper candle decoration.

Circle bow bells can be made by pinching the basic figure halfway into an oval, then with either thumb and forefinger push the bottom portion up on either side and crease.

TAILORED TIE

Cut a strip of ribbon 2½ feet long, moisten one end and form a small ring. Moisten the back of the ring and add a

Lila MacPherson, curator of a national historical collection of antique cards, admires modern gift wraps. At top left, a present decorated with a ribbon Christmas tree, also pointsettias. Centre, the knotless bow with central bouquet, ribbon roses, a corsage and pointsettias. At bottom, candle made from wrapping paper with circle bow ribbon "flame," another pointsettia and a tailored bow.

loop to either side. Again, tate core. Repeat until rose moisten the back and add a loop is the desired size. Moisten the same size to the opposite side. Continue, adding loops each time, green ribbon, moisten, and wrap around base for stem.

KIRBON POINSETTIA

This seasonal flower really adds a touch of Christmas to a package. For petals, cut three strips of ribbon in each of these lengths: six inches, five inches and four inches.

Cut ends to a sharp point. Moisten each piece in the centre and twist to form two petals. Moisten the centres of the three large petals and join them together. Repeat with the other six strips, using the five-inch strips first, the four-inch strips on top. Cut a circle from yellow ribbon, moisten and press to centre.

Fashion leaves from green ribbon at a right angle toward the core forming a diagonal edge. Crease the fold and rotate the core, keeping the two points of the crease level with the top of the core. At the end of each crease fold again at a right angle and repeat.

THE RIBBON ROSE

Take 20-inch strip of one inch wide ribbon. Holding it in left hand two inches from the end, roll ribbon inward, forming a tight core (approximately 6 turns). Fold the ribbon at a right angle toward the core forming a diagonal edge.

Crease the fold and rotate the core, keeping the two points of the crease level with the top of the core. At the end of each crease fold again at a right angle and repeat.

DEAR ABBY . . .

End the Fairy Tale, Mom!

By ABIGAIL VAN BUREN

DEAR ABBY: At what age do you think a child should be told the truth about Santa Claus and the Easter bunny?

FRANK AND HONEST DEAR FRANK: You CAN NOT tell people that you "zero" cash without being extremely rude. Gracefully accept whatever you receive, then give it to someone who will appreciate it.

DEAR ABBY: My husband swears all the time. I have scolded, begged, shamed and nagged, but he still swearing. Our children are getting to an age where they imitate a man. Any suggestions will be appreciated.

DEAR WIFE: Put a "swear box" in your kitchen, and every time your husband swears, make him put a quarter in the box. Or suggest that he substitute the name of a flower for every swear word.

DEAR MOTHER: Fairy tales should be identified as such and explained as soon as a child is wise enough to question their validity. Don't confuse your son by trying to present a fantasy which will be revealed later for what it is.

DEAR ABBY: How does one gracefully refuse an unwanted gift? I have received perfume, which I detest; cosmetics, which I do not use; and jewelry, which I never wear. It is almost as though the people who give me these useless gifts are mocking me. Year after year I get these stupid gifts and I would like to know

what to do.

Gold and White Wedding Decor

Garden City United Church was scene of a white and gold wedding Saturday evening when Jessie Marguerite (Jays) Knight and Robert Gordon Lee exchanged vows.

Large baskets of gold and yellow chrysanthemums decorated the church. Rev. L. G. Seiber officiated at the ceremony.

Parents of the principals are Mr. and Mrs. A. J. Knight, 3579 Quadra Street and Mr. and Mrs. M. Lee of Edmonton.

The bride's floor-length gown of white brocade was fashioned with lily point sleeves and scooped neckline. Chapel-length veil misted from a pearl crown. She carried a white Bible topped with gold roses. The bride was given in marriage by her father.

Matron of honor, Mrs. R. Merry, wore a ballerina-length golden satin gown, golden accessories and carried a bouquet of white carnations.

Bridesmaid, Barbara Knight, wore a white nylon frock enhanced with gold roses and carried white carnations.

Ring bearer, Judith Knight wore a similar white frock and carried a cushion with gold ribbons.

Dennis Willis was best man. A heart-shaped three-tiered wedding cake decorated the bride's table at a reception in Elks Hall.

For a going-away outfit the bride chose a brown knit suit, gold-toned hat, brown accessories and a corsage of gold-toned roses.

On return the newlyweds will make their home at 1924 Belmont Avenue.

Here to attend the wedding were the groom's parents, Mr. and Mrs. Lee of Edmonton, the bride's grandparents, Mr. and Mrs. C. K. Knight of Lacombe, Alta., and Mr. and Mrs. B. Gillman of Vancouver.

New Life Member Welcomed at Board Meeting

A new life member, Mrs. E. M. Carter, St. Alban's Church, was welcomed at meeting of the diocesan board of the Anglican Church Woman's Auxiliary, held in St. Barnabas' Church hall. Mrs. B. P. Hardin presided.

Prayers were taken by Miss G. Brock; Scripture reading by Mrs. T. F. Swallow; noon day service by Rev. D. Page. Mrs. Edwards welcomed members for the recently formed St. Barnabas' W.A.

Mrs. F. A. Goodwin, treasurer, reported receipts for the month of \$7,307.09; disbursements of \$2,000.89 and a balance of \$17,826.14.

Other reports were given by Mrs. T. Hughes, candidate; secretary; Mrs. W. R. Osler, social service; Mrs. H. F. Ballantyne, extra cents. A Christmas pageant was given by executive members with Mrs. Harding and Miss J. Leigh, the narrators.

CLUB CALENDAR

Native Daughters of British Columbia Post No. 3, Thursday, at 8 p.m., Orange Hall, Christmas social to follow.

Calleets Christmas party, Thursday at 8 p.m., in Holyrood House, 2315 McBride Ave.

to be held on Saturday afternoon at 3, at "The Highlands," home of Mr. and Mrs. Millard F. Lougheed, 950 Terrace Avenue, will be Mrs. G. Ross Sinclair, Mrs. W. H. Warren, Miss Lucia Woodrow and Miss Alison Chrown. Members and guests will be welcomed by executive officers, Mr. James K. Nesbitt, Mr. James G. P. Audain, Mrs. W. Lloyd Morgan, Mrs. Kenneth C. Drury, Mr. Peter N. Cotton, Mrs. Edith Lüne, Mr. Richard B. George and Miss Inez Mitchell.

For Bride-elect

Mrs. J. W. Hannan entertained friends on Saturday afternoon at her Brighton Avenue home in honor of Miss Hildagarde Werner, bride-elect. Miss Werner is physio-therapist at Royal Jubilee Hospital.

On Saturday

Presiding at the tea table at annual meeting and membership reception of the Society for Preservation and Maintenance of Craigdarroch Castle,

Women's Editor Elizabeth Forbes

OF PERSONAL INTEREST

Canadian Club Christmas Tea

The honorary president and the honorary vice-president, Mrs. George R. Peakes and Mrs. W. A. C. Bennett, will be special guests at Victoria Women's Canadian Club Christmas tea to be held in the Empress Hotel bathroom on Wednesday afternoon at 3 o'clock. Club president, Mrs. F. M. Corbett, will be the hostess. Entertainment will include a Christmas fantasy, "The Little Star," presented by Mount Newton junior secondary school drama club under direction of Mrs. R. G. Phillips.

Entertaining Continues

Parties continue to hold the lime-light in this pre-Christmas season.

Mr. and Mrs. J. Courtney Haddock entertained at an early evening party in their home on Crescent Road last Saturday. Friends of Mr. and Mrs. J. Denis Haggar have been invited to a cocktail party in the Union Club on Thursday evening.

Mrs. C. R. Saunders will be hostess at a pre-Christmas coffee party in her Judge-Place home on Wednesday morning.

Presiding at the refreshment table which will be centred with a huge Danish brandy snifter, filled with golden baubles, will be Mrs. F. Houghton and Mrs. H. Brown. Golden candles will complete the decor.

A Yuletide Dinner

Christmas dinner party of the Victoria and Islands branch of the Agricultural Institute of Canada was held last Friday evening at the Colony Motel. Chairman was P. Regehr and the master of ceremonies A. C. Carter. Following dinner W. D. Touzeau, Vancouver, plant inspection division of the Canadian department of agriculture, gave an illustrated talk, on a trip to South Africa from Capetown to Kruger National Park. Among those present were Hon. Frank Richter and Mrs. Richter, Mr. and Mrs. William Macgillivray, Mr. and Mrs. G. L. Landon, Mr. and Mrs. Regehr, Mr. and Mrs. Carter, Mr. and Mrs. W. H. Pope, Mr. and Mrs. Norman Putnam, Mr. and Mrs. H. Andison, Mr. and Mrs. William Orchard, Mr. and Mrs. E. E. Brocklebank, Dr. and Mrs. J. Harris, Dr. and Mrs. W. Newton, Mr. and Mrs. W. Reid, Mr. and Mrs. Ted Maas, Mr. and Mrs. E. Peden, Mr. and Mrs. J. J. Woods, Mr. Alan Little and Mr. Bob Matchett.

Officers elected—At a recent meeting of the Gordon United Church Women, Langford, the following officers were elected: President, Mrs. J. S. Petersen; vice-president, Mrs. E. F. Croxford; recording secretary, Mrs. C. A. Ramsfield; corresponding secretary, Mrs. E. J. Collier; treasurer, Mrs. V. E. Petersen and social convener, Mrs. P. W. Blaauw. Mrs. J. M. Speers gave devotional and Mrs. K. Dillabough, report of her two-week stay at the United Church training school in Naramata. It was decided that each of the four units would prepare a Christmas hamper. Following the meeting, a special luncheon was served and bazaar items were sold.

Christmas party—Victoria Credit Women's Breakfast Club held their Christmas social recently at home of Mr. and Mrs. O. C. Kenyon. Games were played and gifts exchanged following a buffet supper prepared by social chairman, Mrs. B. Brooks and committee, Mrs. Kenyon and Mrs. K. Price. Members present were Mrs. V. Morley, Mrs. L. Fitzgerald, Mrs. N. Greenwood, Mrs. J. Bell, Mrs. W. Woodley, Mrs. J. Wells, Mrs. B. Ward, Mrs. B. McDonald, Mrs. K. Fleming, Mrs. M. Gauthrop, Mrs. E. Ward, Mrs. E. Harwood, Mrs. B. Rumsby, Mrs. H. Shearing, and the Misses Georgie MacKay, Kay Knap-

\$950,000 Bylaw to Voters Dec. 13 Expected to Aid Whole Community

Strong support for the Centennial Victoria Square money bylaw was voiced Tuesday by a variety of leading citizens.

Mayor R. B. Wilson, in a letter to 18,000 rate-payers, urged approval of the \$950,000 bylaw Dec. 13. He was strongly backed up by a number of well-known community figures. Here's how they put their support for the civic precinct:

Jack Tang, past-president of Victoria Chinatown Lions Club, said "it is one of the best things that ever happened to Victoria Chinatown."

"For several years the population of this area has been declining steadily. This should bring new life into the area and the community as a whole."

John Wallace, Chamber of Commerce president, said "it will give focus to the centre of the city and promote future development of the area. The chamber is 100 per cent behind city council."

Victoria Symphony Society president, Jack Barracough, said "this is an idea which has been coming for some time. It is highly desirable for every group in the community."

C. A. Peck, vice-president of Victoria Labor Council said "we all think it's good for the city. The project will make for a healthier economy and more jobs."

"I think this is the thing Victoria has been waiting for to regenerate the whole downtown area," said art gallery president Hugh Stephen.

"Cities all over North America are faced with spending many millions of dollars to achieve similar aims. We are able to do it now for comparatively small cost."

Mrs. H. I. Mackenzie, president of the Local Council of Women, said she personally was "all for it."

"The scheme will be wonderful for the life of the city and I'm glad they decided to keep the old city hall. The building has character and the location is excellent."

BRIDGE RESULTS

Winners of the weekly tournament conducted by the Victoria Unit of the American Bridge League were: 1. Elizabeth Warren and Lee Stewart; 2. Mr. and Mrs. Albert Jorgenson; tie for 3. Mr. and Mrs. Sam Duprau and Joan Smith and Eric Goodwin; 5. Ethel Cleworth and Liliane LeButt; 6. Harry Parry and George Morgan.

18-YEAR-OLD PLEADS GUILTY TO SMASHING 41 WINDOWS

An 18-year-old youth pleaded guilty in city police court Monday to smashing 41 windows in a local school and damaging property to the value of \$707.77 Saturday. Albert C. Canfield, 1140 Palmer, will be sentenced Dec. 17.

He was in a party predominantly juveniles, charged with throwing concrete blocks and stones through the windows of S. J. Willis Junior High School, damaging light fixtures and desk tops inside.

Fluoridation Given Approval in Britain

LONDON (Reuters) — The Wales had shown a "dramatic" 50 per cent reduction in dental decay among children, Powell said.

He said total cost of the scheme would be about \$45,000,000 for the entire country.

Health Minister Enoch Powell told the House of Commons he would approve any scheme submitted to him by the local authorities, who had to take the initiative.

Winfred Sykes, leader of the National Pure Water Association, arch-oppoents of fluoride, commented later: "We shall have to see if it is legal."

Powell has been pressed to take Monday night's action by nearly all the dental, medical and municipal corporations in Britain.

Sixty-seven of 137 local authorities had already indicated support for fluoridation, he said.

Labor Fights

A-Weapons For Canada

OTTAWA (CP) — Refusal to

allow nuclear weapons on Canadian soil or in the hands of

Canadian troops was urged to

day in sharply criticizing the

federal government's economic

policies.

"We are fearful of the future

and our apprehension is com-

pounded by the fact that there

is a real lack of adequate

measures to offset this eco-

nomic decline," said the 1,050,-

000-member labor group refer-

ring to forecasts of some re-

cession early next year.

It said the economy program

initiated by the government

last June to meet the foreign

exchange crisis has a restric-

tive effect that will aggravate

an already serious unemploy-

ment situation.

The CLC, headed by Presi-

dent Claude Jodoin, was mak-

ing its annual submission to

the cabinet.

The submission was made

available to the press before

presentation.

BACKS CBC

The 7,500-word brief urged

strengthening of the CBC's po-

sition and said differences be-

tween the CBC and the Board of

Broadcast Governors are

"disquieting and point toward

future difficulties."

"The record of private broad-

casting has made it amply

clear that it cannot be relied

upon to provide programs of

good quality with any reason-

able degree of consistency,"

said the brief.

It also attacked any practice

forcing relief recipients to

work as a violation of the prin-

ciple of assistance and a step

vulnerable to abuses.

The CLC said emergency im-

port restrictions should not be

regarded as a long-term solu-

tion to economic problems.

These were out of step with

"today's need for substantial

liberalization of trade."

The brief criticized reductions

in government spending on

building and other fields,

urged continued efforts to sell

Canadian grain and said it

found evidence of further sup-

port for economic planning.

The proposed national eco-

nomic development board, if

suitably constituted, could cre-

ate a suitable climate for bet-

ter government-labor-manage-

ment relations.

It also said it welcomes the

proposal to aid workers dis-

placed by automation and

the brief.

Audubon Film

Repeat Set

For Saturday

Because of a heavy storm on

Saturday, Dec. 1, many were

unable to hear the Audubon

lecture and film presented by

local lecturer and photogra-

pher Chester Lyons.

For their benefit there will

be a repeat performance in

Oak Bay Junior High School

next Saturday at 8 p.m.

Holders of season tickets

who missed the first lecture

are invited, and any others

who wish to attend will be ad-

mitted at the usual prices.

Members of the Silver

Threads club will be guests of

Victoria Natural History So-

ciety, which is sponsoring the

lecture.

It also said it welcomes the

proposal to aid workers dis-

placed by automation and

the brief.

TV's Perry Mason

In Hospital

HOLLYWOOD (AP) — Ray-

mond Burr, 45, who plays law-

yer Perry Mason on television,

underwent internal surgery

Monday at Cedars of Lebanon

Hospital.

A hospital spokesman said

the operation was performed

for removal of polyps.

Burr, a native of New West-

minster, B.C., is reported in ex-

cellent condition.

Warm wool coats with half chamois lining and full rayon lining. Black, brown or greens in sizes 12 to 20 collectively. **Special, each 18.00**

Sweaters

Women's high-bulk "Orlon" pullovers with short sleeves and fancy stitch design at the neckline. Sizes 14 to 20. **Special, each 2.00**

Slims

Women's tapestry weave, cotton slims in wines, blues and greens. Side zipper, one pocket. Sizes 14 to 18. **Special 2 pairs 5.00**

Children's Overalls

Bib-style overalls of cotton cord in a check pattern. Self straps and elastic at back. Sizes 2, 3 and 4. **Special 2 pairs 1.00**

Chix Diapers

Seconds of Chix gauze diapers... approx. size 21x40 inches. 1 dozen diapers to a package. **Special 2 boxes 7.00**

Handkerchiefs

Maker's clearance of white handkerchiefs with hemstitched or plain edges. Made in England of fine cotton. **Special 12 for 1.00**

Headsquares

Assorted styles and colours in water-repellent head scarves, with hand-rolled hems. **Special 2 for 1.00**

Men's Socks

Special purchase of better quality socks in wools, "Orlon", and mixtures. Assorted patterns, some diamond pattern, wide variety of colours and sizes. **Special 3 pairs 2.00**

Kiddies' Socks

Assortment of rayon plaid and striped socks for children. Assorted colours in sizes 6 to 10. **Special 4 pairs 1.00**

Men's Hankies

Maker's clearance of white handkerchiefs with hemstitched or plain edges. Made in England of fine cotton. **Special 8 for 1.00**

Boys' Socks

Good selection of substandard socks for boys. Assorted styles in wools and wool and nylon mixtures. Choice of colours in sizes 5½ to 10. **Special 2 pairs 1.00**

Play Sets

Seconds of Chino and cord pants with full plaid lining. Matching plaid shirt. Navy only in sizes 3 to 5. **Special 2 for 3.00**

6.00

Women's Dusters

Women's quilted, tricot or rayon dusters in floral patterns on white, pink or blue backgrounds. Medium and large sizes only. **Special, each**

4.00

Men's Boots

Sturdy, well-made vinyl boots with warm, cosy linings and composition soles. Two-eyelet style in black only. Sizes 7 to 12. **Special, pair**

4.00

Boys' Sweaters

Diamond-knit cardigans with long sleeves and "V" neck. Green, wine and charcoal in sizes 4, 6 and 6x. **Special 2 for 3.00**

Play Sets

Chino and cord pants with full plaid lining. Matching plaid shirt. Navy only in sizes 3 to 5. **Special 2 for 3.00**

Men's and Boys' Pyjamas

Men's and boys' cotton flannel pyjamas. Tailored jacket semi-elastic and drawstring waistband. Boys' sizes, 8 to 16. **2 pairs 5.00**

Girls' P.J.'s

Tailored style cotton flannelette pyjamas in plain shades with white cord piping, self belt with fringed edges. Sizes 8 to 12. **Special 2 pairs 3.00**

Flannel Shirts

Plastic lined shirts with long sleeves. Made of "Viscose" flannel. Small, medium, large and extra large. **2 for 7.00**

Sport Shirts

Boys' long-sleeved cotton broadcloth shirts. Sizes 8 to 14. **2 for 3.00**

Cotton

Mill ends of unbleached cotton, 36 inches wide. **4 yards 1.00**

Yardage

Boys' long-sleeved cotton broadcloth shirts. Sizes 8 to 14. **2 for 3.00**

Pillows

Foam chip pillows with floral or striped covering. **2 for 3.00**

Apron

Cotton print aprons in half style. Choice of colours and patterns. **2 for 1.00**

Tea Towels

Large size, cotton towels, white with striped borders. **3 for 1.00**

Aprons

Long-sleeved shirts in tan, brown, blue, beige. Sizes 14½ to 17½. **Special, each 3.00**

Cord Shirts

Long-sleeved shirts in tan, brown, blue, beige. Sizes 14½ to 17½. **Special, each 3.00**

DOLLAR DAY GIFTS FROM THE SUNDRIES DEPARTMENT

Folding Chairs

Attractive enough for any room. Well-made, walnut finished. Fold compactly. **Special, each 2 for 7.00**

Gift-Wrap Sets

Four rolls of decorated paper, and two rolls of foil. 26" wide. Total length of 472". **Special, each 1.00**

Cake Plate Set

Large size plate and server with modern design on white. **Special, each 1.00**

Rubber Mats

Useful and decorative. Heavy rubber non-slip mats in beige, grey, green. 18" x 24". **Special, each 1.00**

Decanter Sets

Green and amber tones. Large decanter and six matching old-fashioned style glasses. **Special, set 4.00**

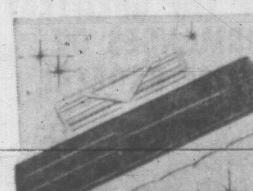

Men's Flannel Shirts

Cotton flannel for casual wear or work. Checks and plaids. Small and medium only. **Special, 2 for 3.00**

Men's Cord Slack

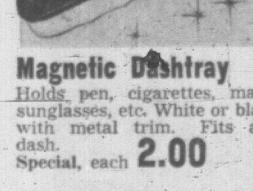

Durable cotton cord casual slacks. Beige, green, brown in good size range. **Special, pair 4.00**

Gifts for Motorists

Car Sponge

Wash 'n' Wax sponge polishes the car even after using several times. **Special, each 1.00**

Magnetic Dashtray

Holds pen, cigarettes, maps, sunglasses, etc. White or black with metal trim. Fits any dash. **Special, each 2.00**

Fibre Cushions

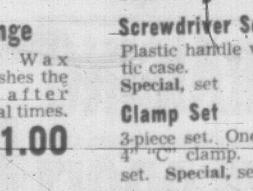

Reversible coil spring-filled cushion provides back comfort and warmth in winter. Choice of colours. **Special, each 2.00**

Exhaust Extension

Chromium-plated bell-shaped type to fit most cars. **Special, each 1.00**

EATON'S—Auto Accessories, Lower Main Floor, Phone EV 2-7141

Handy-Man Gifts

Screwdriver Set

Plastic handle with 3 bits. In plastic case. **1.00**

Clamp Set

3-piece set. One 2", one 3", and one 4" "C" clamp. Very handy! **Special, set 1.00**

Try-Square

8x12" square, graduated in eighths. In its own case. **1.00**

Special, each 1.00

Tack Hammer

Time-saving magnetic tack hammer with rubber grip handle. **Special, each 1.00**

East Is East—Please

Stay east, young winter, is the earnest cry of fortunate Victoria residents who—so far, fingers crossed—have been spared the shivery chore of carrying in long-handled underwear to be thawed by the fire after "drying" in sub-zero weather. Underwear at left is courtesy of Duluth, Minn.; on the other hand, flowering ash at right, on Manor Road, off Joan Crescent, is courtesy of moist, mild weather which Victoria likes to call "just normal" for December—and sometimes it is. Underwear by AP Wirephoto, ash blooms by Times photographer.)

WARMER, SUN FOR VICTORIA

Vancouver Harrased By Third Day of Fog

VANCOUVER (CP)—Fog is spending its third straight unwelcome day visiting the lower mainland of British Columbia.

It lifted a few feet over Vancouver Monday, then settled down again to spend the night. A similar pattern was predicted by the weather office today.

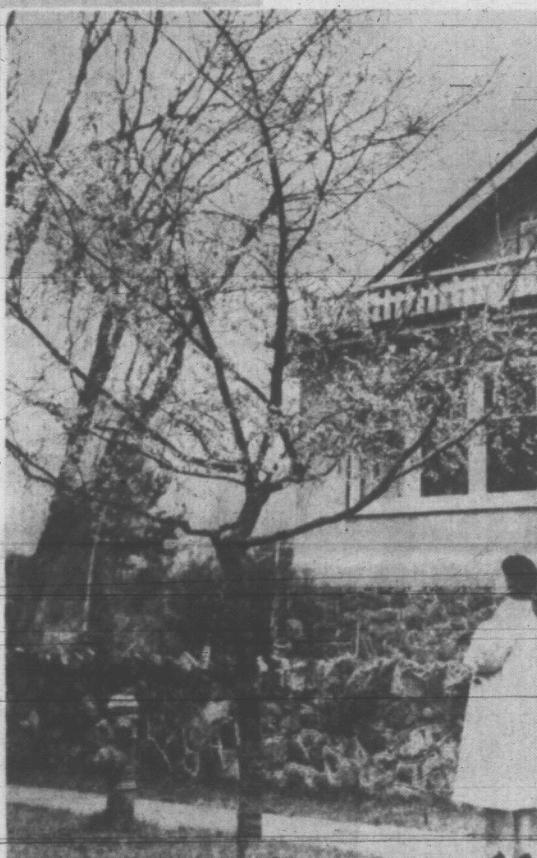

A high pressure area moved into B.C. Sunday, bringing dense fog banks that cancelled air flights and caused delays on road, rail and sea transportation.

Visibility has been better since, and airlines have been making their way back to normal operation.

Break-ins and minor accidents, however, remain a problem in Vancouver. In one serious incident, farmer Karl Kullmann of nearby Langley suffered two broken legs when his truck was hit and pushed 900 feet by a CNR train.

In another, Burnaby resident Herbert Thomas became confused in a fog and drove his car down a dead-end street, over a sloping lawn, and into the bedroom of a basement suite.

Greater Victoria and the southern tip of the Island can expect foggy patches with reduced visibility in high areas tonight, but on the west coast gale warnings are out.

Mental Home Brutality Claims Under Government Investigation

A senior health department official is at Colquitz provincial mental home today investigating allegations of brutality and neglect.

The allegations were made at a preliminary hearing of a charge of attempted murder against Peter Howard Dootson, a Colquitz psychiatrist, in Saanich.

Two other employees at Colquitz have been suspended pending a preliminary investigation.

They are William O. Higgs and Allen H. Cosh, who appeared as witnesses at the preliminary hearing.

"The charges made while giving testimony at the hearing are being investigated."

health department spokesman said.

He said they were charges of brutality and neglect of patients at the Wilkinson Road mental home.

READ IN PAPER:

"As soon as we read the charges in the paper they had to be checked through by the department," he added.

The suspensions do not mean the employees will lose their jobs, but the senior departmental official who arrived from Vancouver this morning is looking into the whole matter, he said.

Health Minister Eric Martin announced in early 1961 that Colquitz will be closed as soon as possible.

If necessary a fuller investigation will be made, although this may not come until com-

MLAs SHOCKED

It has been the subject of strong debate in the legislature and MLAs who have toured it said they were shocked at conditions there.

Health Minister Eric Martin stated objection to the on-site inspection system demanded by the West.

Steele, speaking today to the three-power test ban subcommittee, said the Soviet readiness to allow foreign inspection to service the black boxes shows that the Russians no longer fear foreign inspectors would engage in espionage activities. The fear of spies is the Russians main

stated objection to the on-site inspection system demanded by the West.

Enough data to keep them busy at least three years. It is calculated Alouette will transmit six hours of data a day for the next 600 days and three hours a day after that until the electronic equipment fails.

Dr. Meeks said the satellite has also measured the earth's magnetic field and cosmic noise. The latter measurement would be important in future space communications while the former were helpful in avoidance of telephone garbling caused by double refraction of radio waves by the magnetic field.

Canadian scientists for nearly 20 years have investigated the lower layers of the ionosphere with ground-based instruments. The long-range objective of this research, Dr. Meeks said, is accurate forecasting of the ionospheric "weather" so that communications people can be told ahead of time what radio frequency to use for the best results.

ANALYZE DATA

Dr. Meeks said Alouette has made a "significant step" toward achievement of this goal.

Twelve board scientists analyze data provided by the instrument-packed, 319-pound satellite which is sweeping around the earth once every 105 minutes at an altitude of 600-odd miles.

Dr. Meeks said there will be

enough data to keep them busy at least three years. It is calculated Alouette will transmit six hours of data a day for the next 600 days and three hours a day after that until the electronic equipment fails.

ARTHUR MAYSE

Certain jolly elves at Eaton's have allowed me to dip into a pile of letters received, noted, and when there's a return address, answered by the man of the month. I'd like to print all of these our space allows, so without delay, here we go!

DEAR SANTA:
Please bring me a jeep. I also would like a steam roller and a give-a-show projector and slides. One more thing, I would like a building set.

My sister can't write yet but she would like a baby doll so she can put her doll to bed. I've been very good and April's been pretty good too, for a girl.

Thank you,
Ralph.

DEAR SANTA:

Please may I have a wood-burner. And may I please have some more train tracks and a tunnel, please. Please may I have a camera and please may I have a alarm clock.

Love, from Roddy.

I'm a good girl. Please, I want a buggy, dresses, pants, apron, and that's all for my doll named Susie, and some for my doll named Betty. Will you please bring Uncle Bill a new chair cause that's what he wants and some slippers for daddy.

Please bring Fluffy Cat-a-ball and a surprise for Auntie Hattie.

I don't have to tell you I saw you today because you know, only you forgot to ask what to bring me.

Love, Barb.

I like you. You are so nice to me. I want some roller skates for Christmas.

Love, Lauren.

Will you please give me a blue truck, blue tractor and 2 to play books. Mike.

Will you please give me at Christmas, a doll, buggy, boat, Kelly.

Thank you, Be carefull.

DEAR SANTA-CLAUSE:

How are you, I hope you are feeling fine. I have been a good boy but I have been bad sometimes. If you think I have been good enough, I would like this for Christ-mas, a two-wheeled bike and four models I will see you soon love from

Glen.

I hope you will like what we leave for you.

When is your birthday?

How are you?

Do you know any Eskimos?

Do you live in an igloo? I would like a few things.

I would like a snow cone,

Bachelor Club May Be Halted By Government

Share Selling Scheme Probed

The B.C. cabinet today heard a bid to break up a company operating a bachelors' club in Vancouver and Victoria.

The companies office wants to strike off its register Dolphin Recreations Ltd., promoting a fund drive to build posh clubs for young men and women.

Almo Johnston of Vancouver, a former cemetery plot salesman, who is president of the company, went to the cabinet hearing.

He said the Dolphins have 300 members who have paid between \$300 and \$1,000 in fees.

There are "30 to 40" members in Victoria.

So far the club has no facilities.

"We have been having social functions like bowling and badminton at commercial places, but I think I'll stop that now," said Mr. Johnston.

He said he wanted to concentrate on raising money for recreational buildings.

\$100,000 RAISED

A Vancouver Better Business Bureau spokesman estimated the scheme had so far raised about \$100,000 in cash and promissory notes.

The companies office appointed special investigator Archie Plummer, former Vancouver police inspector, to look into the club's operations.

The companies office is arguing that Mr. Johnston's company is selling shares while it has no assets.

Mr. Johnston said he is selling memberships in an unincorporated club, separate to the company.

He said his plan was for the company to "do all the work and the club members to enjoy all the privileges."

\$1 MILLION CENTRE

He said he wants to sell enough memberships to build a million-dollar recreational centre.

This would require 2,000 members in Vancouver and about 1,500 in Victoria, he said.

"It's a lot of fun and I think it's needed."

"I do this for a living—sure I make money at it, but I don't think this condemns it."

He said he had formed a club at Calgary with 1,400 members in one year. A million dollar building was started there and "everything was turned over to the members."

"They're supposed to finish it. But the minute I left the membership drive stopped. They only got 47 new members."

Room for only two more letters. One is from Donnie.

DEAR SANTA,

I want a tether ball and no one believes of you.

But Kirk does. Kirk's message consists of a sparkly Christmas card with a Valentine heart scrawled inside it.

And in the heart, I love you, Santa Claus.

VICTORIA, B.C., TUESDAY, DECEMBER 11, 1962—PAGE 17

FULTON PLANS 3-DAY TOUR OF ISLAND

Federal Works Minister E. Davie Fulton is planning to spend at least three days on Vancouver Island during a three-week campaign for the leadership of the provincial Conservative party.

Mr. Fulton will start his drive for Tory support across the province Dec. 28 during the federal parliamentary recess.

The Tory leader will be formally chosen at a convention in Vancouver Jan. 24 to 26.

Mr. Fulton plans to be in Nanaimo Jan. 12, in the Comox-Courtenay area Jan. 13 and in Victoria Jan. 14.

While there is no doubt about support for his leadership bid, a party official said today Mr. Fulton wants to attempt "a big job of rebuilding."

Mr. Fulton will go first to Fort St. John, then visit North Central B.C., the Kootenays, Prince Rupert and the lower mainland.

JUBILEE GRANTS SUPPORTED

Royal Jubilee Hospital president Ian Horne today announced Victoria, Saanich and Oak Bay councils have given approval in principle for grants to help out a new \$1,000,000 expansion.

"Discussions are continuing with Esquimalt and we certainly are grateful for the municipal response," he said.

The expansion will provide an addition to the hospital's laboratory and expansion of the nursing school's residential facilities for students, improvement of teaching facilities and increase in classroom accommodation.

The four municipalities were asked to contribute a total of \$135,000 over a period of five years to the project.

BENEFACITOR

The hospital is adding \$100,000 of its own funds and a contribution of \$150,000 has been pledged by an as yet unnamed benefactor.

More than 100 eligible applicants for nursing training have to be turned away each year now because of overcrowding.

Campaigners are volunteers, including members of the hospital staff, calling from a battery of 20 telephones in the hospital annex campaign offices.

The drive needs \$41,643 before books close Dec. 31.

At the same time, three organized labor groups—Victoria Labor Council, Vancouver Island Building and Construction Trades Council and Vancouver Island Metal Trades Council have thrown their support behind the drive.

YOUTH ADMITS

**\$707 DAMAGE
TO SCHOOL**

A telephone drive for money to top up St. Joseph's Hospital building fund started Monday and continues for two weeks in an effort to reach \$350,000.

Campaigners are volunteers, including members of the hospital staff, calling from a battery of 20 telephones in the hospital annex campaign offices.

The drive needs \$41,643 before books close Dec. 31.

At the same time, three organized labor groups—Victoria Labor Council, Vancouver Island Building and Construction Trades Council and Vancouver Island Metal Trades Council have thrown their support behind the drive.

CAN'T COPE

"And our school of nursing—which was the first established in the Pacific Northwest—had found itself with an increasing number of applicants and we just can't cope with the demand with the present facilities."

Mr. Horne said the expansion plan is a "package proposal" involving both the school and laboratory. He said most of the expansion would be for the school but was not prepared to site the breakdown of costs at present.

"We will be releasing the full details of this program in January," he said.

ASK The TIMES

Q. At the top of the Campbell Building, facing Fort Street, there is a camel's head. Could you tell me if this represents anything?—D.M.

A. The camel's head is merely the trademark of Duncan E. Campbell's drug store which used to occupy the lower floor of the building.

Q. Could you please tell me when the first professional hockey was played in Victoria?

—H.A.

A. Pro hockey made its debut in Victoria in the 1911-12 season. The team was known as the Aristocrats with Lester Patrick serving in the dual capacity of player-coach.

Anyone wishing a question answered is invited to send the problem along to The Times, addressed to "Ask The Times." Questions and answers will be published daily.

All questions should deal with matters of general interest. The Times does not guarantee to answer technical or legal problems. Nor will it attempt to put a value on old coins, stamps or antiques. These should be submitted by a dealer.

\$1 Million Conversion Awarded to Yarrows

CPR Making Patricia Into Luxury Liner

By MONTE ROBERTS

Yarrows Ltd. has been awarded a \$1,000,000 contract for conversion of the coastal steamer Princess Patricia to a cruise ship in the Alaska service.

Contract was awarded by the B.C. Coast Service of the CPR on a competitive basis with other B.C. shipyards.

Target date for completion of the extensive conversion work is May 1, and the first cruise will start later that month.

REPLACING LOUISE

The Patricia will replace the venerable Princess Louise in the popular summer service and, when remodelled, will offer increased accommodation as well as luxury appointments.

Principal change for Patricia will be the addition of 100 cabins, for a total of 346 cabins, as against 240 in the Louise.

An elevator will be installed, and a solarium built on the boat deck.

Refinements to restaurant and bar will be carried out, with minor changes to public rooms and crew quarters.

The Patricia is at present at the Belleville Street re-fit jetty, but will move to Yarrows shortly.

FALL VICTIM IN 'POOR' CONDITION

Louis Denoni, 67, of 816 Walker, who fell down an air shaft while setting up a television antenna in an apartment house at 1010 Queens Monday morning, was reported in "poor" condition in St. Joseph's Hospital.

He received his appointment as Victoria prosecutor four years after his admission to the bar Oct. 18, 1947, taking over duties from Claude Harrison Oct. 1, 1951.

Less than six months later he resigned the posts of city and Oak Bay prosecutor.

Born in Stair, Scotland, James Proudfit was brought by his family to Victoria at the age of six, and was to spend his entire life here.

Hospital officials also reported construction worker Karl Potasinski, 22 Linden, is in "good" condition, following a fall in a cement buggy at a construction site on Fort Street about the same time.

City Planning Block Extension For Bay Street

The following year he was president of B.C. Young Liberals, and had served as provincial returning officer for Victoria.

His father, who moved back to Scotland about two years ago, was expected to arrive here by air tonight.

Immediate family surviving are Capt. Proudfit and a sister Agnes, Mrs. Jack B. Anderson, 805 Dereen.

Funeral will be Saturday in St. Barnabas Church, conducted by Canon Thomas Bailey, of Anglican College, Vancouver.

If the project is carried out, the city plans to install traffic lights at Richmond and Bay Streets.

Police said the impact of the small English sports car driven by Briggs snapped a power pole in half 15 feet from the ground when it went out of control on the Island Highway.

The accident occurred at about 9:15 p.m.

The car is a total wreck, police said. Power service was temporarily disrupted.

Both men were trapped in the driver's seat for some time as the fallen portion of the pole held them down.

Rescuers were forced to wait until power had been shut off before they could approach the car and get the injured men out.

POLICE SNAPPED

Police said the impact of the small English sports car driven by Briggs snapped a power pole in half 15 feet from the ground when it went out of control on the Island Highway.

The accident occurred at about 9:15 p.m.

The car is a total wreck, police said. Power service was temporarily disrupted.

Both men were trapped in the driver's seat for some time as the fallen portion of the pole held them down.

Rescuers were forced to wait until power had been shut off before they could approach the car and get the injured men out.

B.C. Horsemen Accept Offer

VANCOUVER (CP)—The B.C. Horsemen's Benevolent Association has voted to sign a two-year agreement with the operators of Exhibition Park racetrack.

The horsemen agreed to a minimum purse of \$1,000 plus bonuses based on a percentage of the mutuel.

They also agreed to limit the number of horses at the track to 800.

The association last week agreed to an 84-day racing season next year, starting May 3 and ending Sept. 16.

Rusk In Paris for Important Talks

PARIS (Reuters)—U.S. State Secretary Dean Rusk arrived here by air today for important talks with British Foreign Secretary Lord Home before the NATO ministerial council meeting which opens Thursday.

Rusk told reporters he doubted "any dramatic or new decisions" would emerge at the three-day council session.

Cambridge Beats Oxford Ruggers

LONDON (Reuters)—Cambridge beat Oxford by 14-0 in an inter-university Rugby Union match at Twickenham today.

U.S. Needs New Fighter Plane

COLORADO SPRINGS, Colo. (UPI)—The commander of the North American Air Defence Command (NORAD) said today the United States urgently needs a new type "improved manned interceptor" fighter plane. Gen. John K. Gerhart, commander-in-chief of NORAD, said a new triple-role fighter, not yet developed, was needed to defend the United States adequately.

Students Storm CNR Building

MONTREAL (CP)—A crowd of students estimated by reporters at 700 paraded around the CNR building in downtown Montreal, tried to force its way into the building late today but was turned back by at least 125 policemen. Police locked all doors to the building except the main entrance.

FRIENDSHIP DOLLARS

Slum Waifs Snatched From Appalling Life

By DESMOND BILL

If you have ever heard starving babies cry you don't forget it easily.

Ask Mrs. L. S. Anderson of 3943 Locarno Lane.

Last year when she lived in the state of Kerala, India, her home was a big, comfortable house in the suburbs of the capital, Trivandrum.

But there are no zoning regulations in Trivandrum. And so her house was surrounded by shacks.

Every night the Andersons were kept awake by the sound of crying babies.

Mrs. Anderson has photographs of her children playing with Indian youngsters. Her two-year-old boy is as tall and is fatter than the nine-year-old Indians in the photo.

Apart from the homes of the wealthy there is only one place in Trivandrum where children are properly housed and fed. That is the orphanage operated by the Unitarian Service Committee.

There, waifs picked up in the slums are saved from

Reservations Made By B.C. For 4 Douks

Reservations have been made for four Sons of Freedoms to leave Vancouver by plane Wednesday and stay at the Chateau Laurier hotel in Ottawa.

A spokesman for Premier Bennett's office said today he still was not sure if the Freedoms, now at Hope, will go.

The hotel reservations are for an indefinite period.

The Freedoms agreed earlier to accept Mr. Bennett's offer of financing a trip east to lay their problems at the feet of the federal government.

Vancouver Stocks Closing Sales

VANCOUVER—Closing sales: Kootenay Base Metals 2,000 at .22, Craigmont 100 at \$19 1/2, Growers B 100 at \$16.50, Butte Mines 500 at .18 1/2, Silver Standard 500 at .96, Midwest Copper 500 at .16, 500 at .96, B.C. Sugar 50 at \$26 1/2, Peace River Pete 1,000 at .34, Canadian American Pete 500 at .32, Cowichan 500 at .63.

All contributions will be acknowledged in the news columns and official receipts for income tax purposes will be sent later by the USC.

Donations may also be made at the Bank of Montreal, Yates and Douglas.

East Is East—Please

Stay east, young winter, is the earnest cry of fortunate Victoria residents who—so far, fingers crossed—have been spared the shivery chore of carrying in long-handled underwear to be thawed by the fire after "drying" in sub-zero weather. Underwear at top is courtesy of Duluth, Minn.; on the other hand, flowering ash below, on Manor Road, off Joan Crescent, is courtesy of moist, mild weather which Victoria likes to call "just normal" for December—and sometimes it is. (Underwear by AP Wirephoto, ash blooms by Times photographer.)

Those who want to help in this work should send their donations to "Friendship Dollars for India," c/o The Times, 2631 Douglas.

Two other employees at Colquitz have been suspended pending a preliminary investigation.

They are William O. Higgs and Allan H. Cosh, who appeared as witnesses at the preliminary hearing.

The charges made while giving testimony at the hearing are being investigated.

SOL' VIC SAYS:

RACING PAGE 13

FIRST KISS FOR WINNER IN 14 YEARS

(See Page 3)

CHARLOTTETOWN (CP)—Premier Walter R. Shaw got his second election victory in three years Monday and, to hear him tell it, his first kiss in nearly a decade and a half.

The 74-year-old premier, whose Progressive Conservative government was returned, told a victory rally:

"We were sitting at home watching the returns. I was gloomy and my wife was gloomier as the Liberals went ahead in a number of early polls.

"But things started to improve and in fact got so good my wife jumped up and kissed me for the first time in 14 years. It was quite a shock."

U.S. Warned
By Russians
On New Tests

Would Free Others,
Conference Told

(Times News Services)

GENEVA—The Soviet Union said today the United States apparently considered itself free to continue nuclear weapons tests after Jan. 1.

"If so, such action will cause corresponding action by other nuclear powers," declared Soviet delegate Semyon Tsarapkin before the three-power nuclear test ban subcommittee of the 17-nation disarmament conference. "The responsibility will be entirely on the United States."

Tsarapkin spoke after the United States said it would not accept an uncontrolled moratorium on underground nuclear tests "no matter what the Soviet Union may do in future weeks with respect to its own test series."

There has been considerable speculation here the Soviets planned to announce soon that they will stop all nuclear tests after Jan. 1 and will not resume them unless the West does.

Speaking against any uncontrolled moratorium, U.S. delegate Charles Stelle also criticized Russia's day-old black box suggestion for policing a nuclear test ban as inadequate. But he also welcomed it "as hopefully, a foretelling of things to come."

Stelle noted that the Soviet

Warned Staff From Phones

NEW WESTMINSTER (CP)—A bank customer overpowered a holdup man who threatened a bank staff with a toy gun today in the Bank of Nova Scotia. Don Graham tackled the suspect and held him for police.

Graham was talking to the relief manager, Orville Goldby, when a thin dark man, wearing no disguise entered the bank.

Goldby went toward the man who was brandishing the gun at staff members behind the counter and warning everyone to stay clear of telephones.

The gunman then tossed a brown bag to teller Miss Janet Walker. Miss Walker said she was told: "Fill it up!"

"I just froze," Miss Walker said. "I was too scared to play any part."

The holdup man then backed up toward the office where Graham had been talking to Goldby. He called to Graham to come out. Graham lunged out of the office, tackled the man and wrested the weapon from him.

It proved to be a small black plastic toy gun.

Britons Control Borneo Oil Town

SERIA, Brunei (Reuters)—British forces today virtually regained control of the rebel-held oil town of Seria and freed some 400 Europeans who took refuge in their homes when the rebellion began.

But nine more Europeans were reported still held prisoner in the local police station which remained under the control of about 50 armed rebels.

The British operations commander in Brunei, Brig. A. G. Patterson, said his troops passed the station so that the hostages would not be harmed after Jan. 1.

Patterson said his troops killed "several" rebels in their battle to take the town and captured many others.

There were no casualties on our side," he added.

The British troops hoped a show of force would persuade the rebels to give up their faltering, four-day-old revolt in this British oil-rich protectorate on the island of Borneo.

About 300 soldiers of the Queen's Own Highlanders advanced toward Seria's rebel-held shopping centre area from two sides. They had established contact with most of the 400 Europeans working at various Shell Oil Company installations in Seria.

The British pressed on with their police action by local and imported forces to put down the revolt, officially believed to be the work of Brunei-born Malays who have close affinities with Indonesia and oppose the proposed Federation of Malaysia, which might include this sultanate.

Reports indicated British troops were pressing against pockets of rebels holding out near the capital, Brunei Town.

A British push against rebels at Kuala Belait was expected to develop later in the day.

RELIEVE POLICE STATION

Among the areas relieved by the Highlanders after their arrival by air Monday was Penaga police station. It was said to have been in a desperate situation under rebel siege.

Meanwhile the sultan of Brunei, as head-of-state, has signed a warrant for the arrest of rebel leader Inche Azahari, now in Manila. Azahari's Rayata (People's) party has been banned.

British warships brought more troops to Labuan, a tiny island staging post in North Borneo waters, during the night as the British troop buildup continued.

In Kuala Lumpur Malayan Prime Minister Tunku Abdul Rahman said he had received information that some Indonesians were taking part in the revolt. He added that 80 men of the Malayan police force left today for Brunei while 100 more would go there later in the day.

Mental Home Brutality Claims Under Government Investigation

A senior health department official is at Colquitz provincial mental home today investigating allegations of brutality and neglect.

The allegations were made at a preliminary hearing of a charge of attempted murder against Peter Howard Dootson, a Colquitz psychiatric aide, in Saanichton.

Continued on Page 13

Health department spokesman said.

He said they were charged of brutality and neglect of patients at the Wilkinson Road mental home.

The investigator at Colquitz will report his findings to the health and attorney-general's departments.

Colquitz, once a prison, has been much criticized as a mental institution.

MLAs SHOCKED

It has been the subject of strong debate in the legislature and MLAs who have toured it said they were shocked at conditions there.

Health Minister Eric Martin announced in early 1961 that Colquitz will be closed as soon as possible.
